TRAVEL DEMAND MODEL CALIBRATION & 2050 POPULATION FORECAST

TRAVEL DEMAND MODEL CALIBRATION & 2050 POPULATION FORECAST

BACKGROUND & DESCRIPTION

The base year for the Metropolitan Transportation Plan (MTP) will be 2020. Assuming that 2020 Census data and traffic counts will be available by Spring of 2022, the Census data needs to be distributed to Traffic Analysis Zones (TAZs) and the APO's regional Travel Demand Model (TDM) needs to be recalibrated to the new base year. But, before the TDM can be recalibrated, the APO desires that the outcomes of two previous projects be fully incorporated into the TDM: 1) the Travel Demand Model Improvement effort in 2020 and 2) the 2021 Household Travel Survey. Both of those efforts resulted in outputs and recommendations that need to be implemented into the TDM program files. Also, since 2050 is the horizon planning-year for the next MTP, reasonable estimates of 2050 population, jobs, and other socio-economic data need to be completed in cooperation with the APO's member jurisdictions and distributed to the TAZs. Finally, using the 2050 socio-economic data and the 2020 roadway network (provided by APO staff), a 2050 no-build model scenario needs to be completed in order to highlight future areas of concern if no additional investments were made in the roadway network.

OPTIONAL: If consultants can complete the tasks above, but additional budget remains, the APO is also interested in scenario model runs that attempt to address problem areas highlighted in the 2050 "no build" model output. For example, we would be interested in seeing

a 2050 "no-build + beltway" scenario to estimate the impact the beltway corridor alone would have on traffic operations. Another example would be if the 2050 "no build" model shows deficient operations on Corridor X, what happens if Corridor X is widened? Does it solve the problem? Does it push the problem to another corridor? Is it even possible to widen the corridor sufficiently to alleviate the problem?

OTHER RELATED PLANNING PROCESSES

In 2017, a regional population forecast for the year 2045 was completed: https://stcloudapo.org/wp-content/uploads/2019/12/StCloudAPO_Population_Forecast_TechMemo_UPDATED06052017.pdf.

In 2020, a series of technical memos were produced recommending certain updates to the APO's TDM. Some of the recommendations have already been implemented, but some could not be fully completed until the TDM was again calibrated: <https://stcloudapo.org/wp-content/uploads/2020/12/St.-Cloud-APO-2020-Model-Improvements-All-Tech-Memos-Combined.pdf>. The APO expects that all recommendations would be fully implemented as part of this effort.

In 2021, the APO completed a regional household travel survey of about 850 households. (<https://stcloudapo.org/current-plans/current-upwp/regional-household-travel-survey/>) The final data from this survey will be available early in 2022. The APO expects that the results of the travel survey will influence some of the assumptions built into the TDM, and further expects that the consultant chosen for this effort will fully incorporate

household travel survey data where appropriate in the TDM model scripts and files.

Additionally, the APO produces an annual report of transportation system performance that may help inform TDM efforts: <https://stcloudapo.org/wp-content/uploads/2021/06/2019-TPMR.pdf>.

In 2022, MnDOT will be reviewing all roadway functional classifications and updating as warranted. Depending on the results of this review, additional roadways may need to be added to the APO TDM, and/or other roadways may need to be deleted.

APO staff will also be working with the APO Technical Advisory Committee and Policy Board to review and update the APO's planning area based on the results of the 2020 Census. If new townships are added to the APO's planning area, 2050 forecasts for those townships will need to be completed, and those townships will need to be included in the TDM as well.

GENERAL NOTES

We have composed this RFP to be as flexible and open as possible. We anticipate respondents will put their best foot forward by proposing a process which they feel is best suited to completing a detailed and accurate corridor plan as effectively and cost-efficiently as possible.

Given the nature, scope, and budget for this study, we felt it was best not to be prescriptive in this RFP, but rather to let you tell us what you are capable of accomplishing.

GOALS

The goals of this effort are to:

1. Fully implement all recommendations from the 2020 TDM Improvement effort into the TDM files and scripts.
2. Fully implement all relevant data from the 2021 Household Travel Survey into the TDM files and scripts.
3. Update 2020 Traffic Analysis Zones (TAZs) to reflect 2020 Census data
4. Recalibrate the TDM to base year 2020.
5. Forecast 2050 population and other social-economic data and distribute to TAZs.
6. Complete a 2050 "no build" model to highlight areas where traffic operations would suffer if no further investment were made in the roadway network.
7. **OPTIONAL:** Complete 2050 model scenarios if project budget allows.

DELIVERABLE(S)

The final deliverables of this effort will be:

1. A 2020 TAZ database which reflects the results of the 2020 Census.
2. A TDM that fully incorporates the recommendations of the 2020 Model Improvement effort and the 2021 Household Travel Survey.
3. A recalibrated TDM, with full documentation of the calibration effort and results.
4. A reasonable 2050 TAZ database which reflects input from the APO's jurisdictional partners.
5. A 2050 "no build" model run.
6. **OPTIONAL:** One or more 2050 "no build+" model scenarios which attempt to relieve any deficient traffic operations seen in the 2050 "no build" model run (i.e., deliverable 5).

Depending upon the respondent's choices when outlining their methodology for addressing the goals of this study, interim deliverables may be necessary or desirable.

BUDGET AND TIMELINE

The total project budget is \$140,000.

Federal funding assistance provided by the Federal Highway Administration for this project is expected to be \$112,000 (CFDA 20.205). The budget includes \$28,000 local funds. Consultants should consider \$112,000 to be the maximum amount for the corridor study.

It is anticipated that the work described in this RFP will begin on or about April 15, 2022, and be completed by no later than Dec. 31, 2022. (See Evaluation and Selection Timeline starting on page 8).

PROPOSAL CONTENT

Respondents are asked to describe in detail:

1. how they intend to achieve the goals and deliverables of this survey, including specific tasks, expected outcomes, and both interim and final deliverables;
2. the qualifications and experience of staff who will work on this project; and
3. their firm's qualifications and experience related to the overall goals of the study.

Proposed staff hours must be broken down by person(s) assigned to each task/subtask. Overhead rate and expense, cost plus fixed fee, and any direct non-salary expense must be itemized and shown separately from individual staff hourly billing rates and expenses. Hour detail by task and assigned staff person must be provided in the proposal

document in table format with assumed costs. See "Sample Price Plan" (Exhibit B) for an example. Fiscal value is a factor in the proposal evaluation (20%).

The Proposal shall be submitted on 8.5" x 11" paper in no less than 10-point font, and shall not exceed **35 pages** in length, including cover letter and all exhibits and appendices (not including required certifications and affidavits). Graphic illustrations may be included on 11" x 17" paper if necessary for clarity. Pursuant to Section 6002 of the Solid Waste Disposal Act, all proposal materials shall be bound in a single submission by a single staple in the top left corner. Plastic binders, covers, section dividers, etc. are prohibited. Paper shall have a minimum of 30% post-consumer fiber.

The following will be considered minimum contents of the proposal and must be submitted in the order listed:

1. Respondent's company name, business address, the contact person's name, telephone number, fax number and email address.
2. A general overview of the project objectives, goals, proposed tasks and deliverables to show or demonstrate the Respondent's understanding of the project.
3. A description of the proposed approach and methodology to be utilized, deliverables to be provided by the Respondent, and a description of the proposed management techniques.
4. A detailed description of the Respondent's background and experience with similar work. This should include examples of similar work indicating the Respondent's level of involvement in the project,

and the key personnel involved with the project.

5. A list of the key personnel who will be assigned to the project and their area of responsibility. Provide statements for each of the key personnel detailing their training, work experience and qualifications relevant to the proposed work. No change in personnel assigned to the project will be permitted without the written approval of the APO.
6. A work plan identifying the major tasks to be accomplished. The work plan must present the Respondent's approach, task breakdown, and deliverable due dates.
7. A price plan including the hourly rates and fringe rates for all key personnel who will perform the tasks outlined above, as well as the agency's indirect rate.
8. Three references from clients within the past three years for whom the Respondent has performed similar work. Ideally, the references will have worked with the key personnel assigned to this study.
9. Completed forms and documents required under any other section of this RFP.

PROPOSAL SUBMITTAL

All proposals must be sent to:

Brian Gibson, PTP
Executive Director
St. Cloud Area Planning Organization
1040 County Road 4
St. Cloud, MN 56303

All responses must be received no later than noon Central time on March 11, 2022.

If proposals are mailed, submit the original and two copies of the proposal. A principal member of the firm must sign the original proposal in [blue](#) ink.

Proposals may be emailed to gibson@stcloudapo.org. However, by doing so, respondents are indicating their understanding that the APO will print the proposal as it is received on standard 8.5" x 11" paper and makes no guarantees that large format maps, graphics, or other formatting issues will be printed as intended. **Fax responses will not be considered.**

PROPOSAL EVALUATION

A "Best Value Selection" method will be used to evaluate proposals submitted in response to this RFP. Qualifications are included as part of the evaluation point system. Staff members of APO will evaluate all proposals received by the deadline. A 100-point scale will be used to create the final evaluation and selection. The factors and weighting on which proposals will be judged are:

1. **Project understanding and proposed scope-of-work**, as demonstrated by the Respondent's ability to meet the goals of the project effectively and efficiently. Factors considered here include the proposed coordination with local partners, project management techniques, visualizations, QA/QC, and other tasks that result in a concise process that maximizes the

-
- quality of the final products. (40 points max.)
 2. **Specialized expertise and experience of key staff members**, as demonstrated by the experience and qualifications of key staff members assigned to the project. (15 points max.)
 3. The Respondent's **record of past performance**, including quality of work, ability to control costs, and ability to meet schedules. (15 points max.)
 4. The inclusion of a MnDOT-registered **Disadvantaged Business Enterprise (DBE)** for at least 5% of the total study budget. DBEs that play a more significant role in the study may be awarded more points up to a maximum of 10, while DBEs that play only a minor role may be awarded fewer points (10 points max.)
 5. **Value** compared to other proposals, as demonstrated by the proposed project budget, staff time dedicated to the project, the dedication of other resources, and maximizing the overall quality of the final product given time and budgetary constraints. Note that the highest value proposal is not necessarily the proposal with the lowest proposed budget. (20 points max.)

Proposals will be evaluated and the award may be made based on original proposals. APO holds the right to award without negotiation. If negotiations are determined to be necessary, successful firms determined to be in the "Competitive Range" will be notified by March 25, 2022 for further negotiations.

The evaluation team will base their determination of which proposal represents the "best value" on an analysis

of the tradeoff of qualitative technical factors and price or cost factors. The evaluation team may determine that negotiations with the next highest ranked proposer are warranted if negotiations with the preferred proposer do not satisfactorily meet the needs of this project.

REQUEST FOR CLARIFICATION

In the event the evaluation team believes that additional clarification of a proposal is needed to make a determination regarding the proposal, the APO shall submit a request for clarification by email to the Respondent. The Respondent will have two working days to respond via email to provide the additional requested information.

PROPOSAL QUESTIONS

No interpretation of the meaning of the RFP will be made to any Respondent verbally. Respondents are encouraged to promptly notify APO of any apparent major inconsistencies, problems or ambiguities in this RFP. Any questions regarding this RFP must be submitted by email only to:

*Brian Gibson, PTP
APO Executive Director
gibson@stcloudapo.org*

All proposal questions and responses will be posted on the St. Cloud Area Planning Organization website: <https://stcloudapo.org/current-plans/current-upwp/tdm-calibration-2050-population-forecast/>.

No other project personnel are allowed to discuss the RFP before the proposal submission deadline. Contact regarding this RFP with any personnel not listed above could result in disqualification.

To be given consideration, all questions regarding this RFP must be received no later than noon Central time on Feb. 18, 2022.

GENERAL INFORMATION

Respondents must adhere to all terms of this RFP. Late proposals will not be considered. All costs incurred in responding to this RFP will be borne by the Respondent.

APO NOT OBLIGATED TO COMPLETE PROJECT

This RFP does not obligate the Saint Cloud Area Planning Organization (APO) to award a Contract or complete the project, and APO reserves the right to cancel the solicitation if it is considered to be in its best interest.

DISPOSITION OF RESPONSES

All materials submitted in response to this RFP will become property of APO and will become public record after the evaluation process is completed and an award decision made. If the respondent submits information in response to this RFP that it believes to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minnesota Statutes §13.37, the respondent must:

- Clearly mark all trade secret materials in its response at the time the response is submitted,
- Include a statement with its response justifying the trade secret designation for each item, and
- Defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless APO, its agents and employees, from any judgments or damages awarded against the APO in

favor of the party requesting the materials, and any and all costs connected with that defense. This indemnification survives the APO's award of a Contract. In submitting a response to this RFP, the responder agrees that this indemnification survives as long as the trade secret materials are in possession of APO. APO is required to keep all the basic documents related to its Contracts, including responses to RFPs for a minimum of seven years.

APO will **not** consider the prices submitted by the respondent to be proprietary or trade secret materials.

- Patent Rights: The Common Grant Rules require provisions consistent with Dept. of Commerce regulations, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms," 37 CFR Part 401.
- Rights to Data: When FHWA provides Federal assistance to support the costs of a research, development, demonstration, or a special studies project, FHWA generally seeks sufficient rights in the data developed so that the resulting data can be made available to any FHWA recipient, sub-recipient, third party contractor, or third party subcontractor.

Responses to this RFP will not be open for public review until APO decides to pursue a Contract and that Contract is executed.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) GOAL.

Small businesses, minority-owned businesses, and women-owned businesses are encouraged to respond to this

solicitation. Larger firms are encouraged to sub-contract with small, minority-owned, and women-owned businesses when economically feasible.

The MnDOT Office of Civil Rights has assigned a **Race & Gender Neutral** DBE goal to this project. Bidders are directed to read Exhibit C and Section F of Exhibit D.

The DBE Special Provisions (Exhibit C) explain how to comply with the DBE requirements. In particular, see text regarding documents that a bidder must submit with its bid proposal. The form required in the bid can be found on the last page of Exhibit C.

EXCLUDED PARTIES LISTING SYSTEM.

Before entering into a third-party contract or subcontract, the APO shall check the Excluded Parties Listing System (EPLS) at www.sam.gov to ensure the selected vendor or contractor has not been excluded from doing business with the federal government or its grantees. The APO shall document that the EPLS has been checked.

PROPOSAL PROTEST PROCEDURE

1. A formal letter of protest must be received at the APO Office to the attention of the Brian Gibson, Executive Director, within 10 business days of the date of the award notification letter. The letter must state specifically the reason for the protest and include any documentation needed to substantiate the claim(s).

2. Saint Cloud APO will have 10 business days from the date of receipt of the protest letter in which to make a written response. The Saint Cloud APO may extend the period for purposes of investigating the protest, if it is warranted, by notifying the complainant in writing of their intentions within the above mentioned response time.
3. If the complainant, after receiving the final written response from the Saint Cloud APO, is not satisfied that the reason for protest has been sufficiently resolved, he/she may file a request for an appeal to be heard by the Saint Cloud APO. Such request must be written and received within 10 business days from the date of the Saint Cloud APO response letter. The letter shall be made to the attention of Brian Gibson, Executive Director, who will schedule the hearing for the next available Saint Cloud APO Board meeting, and inform the complainant in writing of said date and time.
4. Saint Cloud APO will not receive any service or product described in the PROPOSAL document from the successful Proposal until the protest has been resolved. Complainants do have the right to protest directly to FHWA if they choose.

CONFLICT OF INTEREST CHECKLIST AND DISCLOSURE FORM

PURPOSE OF THIS CHECKLIST. This checklist is provided to assist proposers in screening for potential organizational conflicts of interest. The checklist is for the internal use of proposers and does not need to be submitted, however, the Disclosure of Potential Conflict of Interest form should be submitted in a separate envelope along with your proposal.

DEFINITION OF "PROPOSER". As used herein, the word "Proposer" includes both the prime contractor and all proposed subcontractors.

CHECKLIST IS NOT EXCLUSIVE. Please note that this checklist serves as a guide only, and that there may be additional potential conflict situations not covered by this checklist. If a proposer determines a potential conflict of interest exists that is not covered by this checklist, that potential conflict must still be disclosed.

USE OF THE DISCLOSURE FORM. A proposer must complete the attached disclosure form and submit it with their Proposal. If a proposer determines a potential conflict of interest exists, it must disclose the potential conflict to Saint Cloud APO; however, such a disclosure will not necessarily disqualify a proposer from being awarded a Contract. To avoid any unfair "taint" of the selection process, the disclosure form should be provided separate from the bound proposal, and it will not be provided to selection committee members. Saint Cloud APO personnel will review the disclosure and the appropriateness of the proposed mitigation measures to determine if the proposer may be awarded the contract notwithstanding the potential conflict. By statute, resolution of conflict of interest issues is ultimately at the sole discretion of Saint Cloud APO.

MATERIAL REPRESENTATION. The proposer is required to submit the attached disclosure form either declaring, to the best of its knowledge and belief, either that no potential conflict exists, or identifying potential conflicts and proposing remedial measures to ameliorate such conflict. The proposer must also update conflict information if such information changes after the submission of the proposal. Information provided on the form will constitute a material representation as to the award of this Contract. Saint Cloud APO reserve the right to cancel or amend the resulting contract if the successful proposer failed to disclose a potential conflict, which it knew or should have known about, or if the proposer provided information on the disclosure form that is materially false or misleading.

APPROACH TO REVIEWING POTENTIAL CONFLICTS. Saint Cloud APO recognizes that proposer's must maintain business relations with other public and private sector entities in order to continue as viable businesses. Saint Cloud APO will take this reality into account as it evaluates the appropriateness of proposed measures to mitigate potential conflicts. It is not Saint Cloud APO's intent to disqualify proposers based merely on the existence of a business relationship with another entity, but rather only when such relationship causes a conflict that potentially impairs the proposer's ability to provide objective advice to Saint Cloud APO. Saint Cloud APO would seek to disqualify proposers only in those cases where a potential conflict cannot be adequately mitigated. Nevertheless, Saint Cloud APO must follow statutory guidance on Organizational Conflicts of Interest.

STATUTORY GUIDANCE. Minnesota Statutes §16C.02, subd. 10 (a) places limits on state agencies ability to contract with entities having an “Organizational Conflict of Interest”. For purposes of this checklist and disclosure requirement, the term “Vendor” includes “Proposer” as defined above. Pursuant to such statute, “Organizational Conflict of Interest” means that because of existing or planned activities or because of relationships with other persons: (1) the vendor is unable or potentially unable to render impartial assistance or advice to the state; (2) the vendor’s objectivity in performing the contract work is or might otherwise be impaired; or (3) the vendor has an unfair advantage.

ADDITIONAL GUIDANCE FOR PROFESSIONALS LICENSED BY THE MINNESOTA BOARD OF ENGINEERING. The Minnesota Board of Engineering has established conflict of interest rules applicable to those professionals licensed by the Board (see Minnesota Rules part 1805.0300) Subpart 1 of the rule provides “A licensee shall avoid accepting a commission where duty to the client or the public would conflict with the personal interest of the licensee or the interest of another client. Prior to accepting such employment, the licensee shall disclose to a prospective client such facts as may give rise to a conflict of interest”.

AN ORGANIZATIONAL CONFLICT OF INTEREST MAY EXIST IN ANY OF THE FOLLOWING CASES:

- ❑ The proposer, or its principals, own real property in a location where there may be a positive or adverse impact on the value of such property based on the recommendations, designs, appraisals, or other deliverables required by this Contract.
- ❑ The proposer is providing services to another governmental or private entity and the proposer knows or has reason to believe, that entity’s interests are, or may be, adverse to the state’s interests with respect to the specific project covered by this contract. **Comment:** the mere existence of a business relationship with another entity would not ordinarily need to be disclosed. Rather, this focuses on the nature of services commissioned by the other entity. For example, it would not be appropriate to propose on a Saint Cloud APO project if a local government has also retained the proposer for the purpose of persuading Saint Cloud APO to stop or alter the project plans.
- ❑ The Contract is for right-of-way acquisition services or related services (e.g. geotechnical exploration) and the proposer has an existing business relationship with a governmental or private entity that owns property to be acquired pursuant to the Contract.
- ❑ The proposer is providing real estate or design services to a private entity, including but not limited to developers, whom the proposer knows or has good reason to believe, own or are planning to purchase property affected by the project covered by this Contract, when the value or potential uses of such property may be affected by the proposer’s performance of work pursuant to this Contract. “Property affected by the project” includes property that is in, adjacent to, or in reasonable proximity to current or potential right-of-way for the project. The value or potential uses of the private entity’s property may be affected by the proposer’s work pursuant to the Contract when such work involves providing recommendations for right-of-way acquisition, access control, and the design or location of frontage roads and

interchanges. **Comment:** this provision does not presume proposers know or have a duty to inquire as to all of the business objectives of their clients. Rather, it seeks the disclosure of information regarding cases where the proposer has reason to believe that its performance of work under this contract may materially affect the value or viability of a project it is performing for the other entity.

- ❑ The proposer has a business arrangement with a current Saint Cloud APO employee or immediate family member of such employee, including promised future employment of such person, or a subcontracting arrangement with such person, when such arrangement is contingent on the proposer being awarded this Contract. This item does not apply to pre-existing employment of current or former Saint Cloud APO employees, or their immediate family members. **Comment:** this provision is not intended to supersede any Saint Cloud APO policies applicable to its own employees accepting outside employment. This provision is intended to focus on identifying situations where promises of employment have been made contingent on the outcome of this particular procurement. It is intended to avoid a situation where a proposer may have unfair access to “inside” information.
- ❑ The proposer has, in previous work for the state, been given access to “data” relevant to this procurement or this project that is classified as “private” or “nonpublic” under the Minnesota Government Data Practices Act, and such data potentially provides the proposer with an unfair advantage in preparing a proposal for this project. **Comment:** this provision will not, for example, necessarily disqualify a proposer who performed some preliminary work from obtaining a final design Contract, especially when the results of such previous work are public data available to all other proposers. Rather, it attempts to avoid an “unfair advantage” when such information cannot be provided to other potential proposers. Definitions of “government data”, “public data”, “non-public data” and “private data” can be found in Minnesota Statutes Chapter 13.
- ❑ The proposer has, in previous work for the state, helped create the “ground rules” for this solicitation by performing work such as: writing this solicitation, or preparing evaluation criteria or evaluation guides for this solicitation.
- ❑ The proposer, or any of its principals, because of any current or planned business arrangement, investment interest, or ownership interest in any other business, may be unable to provide objective advice to the state.
