Transportation Improvement Program

FY 2020-2023

Prepared by the Saint Cloud Area Planning Organization Updated Feb. 13, 2020

DISCLAIMER

The preparation of this document was funded in part by the United States Department of Transportation with funding administered through the Minnesota Department of Transportation, the Federal Highway Administration, and the Federal Transit Administration. Additional funding was provided locally by the member jurisdictions of the Saint Cloud Area Planning Organization: Benton County, Sherburne County, Stearns County, City of Sartell, City of Sauk Rapids, City of Saint Cloud, City of Saint Joseph, City of Waite Park, LeSauk Township, and Saint Cloud Metropolitan Transit Commission. The United States Government and the State of Minnesota assume no liability for the contents or use thereof.

This document does not constitute a standard, specification, or regulation. The United States Government, the State of Minnesota, and the Saint Cloud Area Planning Organization does not endorse products or manufacturers. Trade or manufacturers' names may appear therein only because they are considered essential to the objective of this document.

The contents of this document reflect the views of the authors, who are responsible for the facts and the accuracy of the data presented herein. The contents do not necessarily reflect the policies of the State and Federal departments of transportation.

The Saint Cloud Area Planning Organization (APO) hereby gives public notice that it is the policy of the APO to fully comply with Title VI of the Civil Rights Act of 1964 and the Civil Rights Restoration Act of 1987, Executive Order 12898 on Environmental Justice, and related statutes and regulations in all programs and activities. Title VI assures that no person shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or otherwise subjected to discrimination under any program or activity for which the APO receives Federal financial assistance. Any person who believes they have been aggrieved by an unlawful discriminatory practice by the APO has a right to file a formal complaint with the APO, MnDOT, or the U.S. DOT. Any such complaint must be in writing and filed with the APO's Title VI Compliance Manager within one hundred eighty (180) days following the date of the alleged discriminatory occurrence. For more information, or to obtain a Title VI Discrimination Complaint Form, please see the Saint Cloud APO website (www.stcloudapo.org), or you can view a copy at our office at 1040 County Road 4, Saint Cloud, MN 56303.

RESOLUTION #2019-12

Approving the 2020-2023 Saint Cloud Area Planning Organization Transportation Improvement Program

(320) 252-7568 • (320) 252-6557 (FAX) • E-mail: admin@stcloudapo.org • www.stcloudapo.org

RESOLUTION #2019-12

Approving the 2020-2023 Saint Cloud Area Planning Organization Transportation Improvement Program

WHEREAS, the Saint Cloud Area Planning Organization is the body responsible for making transportation policy decisions and for directing the transportation planning and funding programming within the Saint Cloud urbanized area; and

WHEREAS, the Saint Cloud Area Planning Organization has established a comprehensive, cooperative, and continuing (3-C) transportation planning process to develop the Unified Planning Work Program (UPWP), a Metropolitan Transportation Plan (MTP), and Transportation Improvement Program (TIP) to facilitate Federal funding for communities, counties, and transit operators, and to provide technical assistance and expertise to transportation interests; and

WHEREAS, the U.S. Department of Transportation regulations require the development and annual approval of a Transportation Improvement Program (TIP) for each urbanized area by highway and transit officials; special interest and service organizations, including users of Transportation; Federal Highway and Transit Administrations; and

WHEREAS, projects must be included in the TIP which utilizes the following U.S. Department of Transportation program funds under the Fixing America's Surface Transportation Act (FAST Act); and

WHEREAS, the FY 2020-2023 TIP is an implementation of the Saint Cloud Area Planning Organization's Transportation Plan Blueprint-2040, the Saint Cloud Area Planning Organization's MTP and is fiscally constrained; and

WHEREAS, the U.S. Department of Transportation regulations provide for self-certification that the urban transportation planning process is being carried out in conformance with all applicable requirements of:

- 1. 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
- 3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;

- 6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- 7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- 8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance,
- 9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- 10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities; and

WHEREAS, the Saint Cloud Area Planning Organization has solicited a thirty (30) day public comment period on the draft FY 2020-2023 TIP and any public comments received are documented in the TIP document.

NOW, THEREFORE, BE IT RESOLVED, in accordance with 23 CFR 450.334, the Saint Cloud Area Planning Organization hereby certifies that the metropolitan planning process is addressing major issues facing the metropolitan planning area and is being conducted in accordance with all applicable requirements as described above.

ATTEST:

Westerlund

INTRODUCTION

The Transportation Improvement Program (TIP) is a multi-year program of transportation improvements for the Saint Cloud Metropolitan Planning Area (MPA). Decisions about transportation investments require collaboration and cooperation between different levels of government, neighboring jurisdictions, and agencies. As a document, the TIP reports how the various jurisdictions and agencies within the Saint Cloud MPA have prioritized their use of limited Federal highway and transit funding.

The TIP must, at a minimum, be updated and approved every four years by the Metropolitan Planning Organization (MPO) in cooperation with the state department of transportation and local public transit agencies. However, the TIP is normally updated annually.

The Saint Cloud Area Planning Organization (APO) is the MPO for the Saint Cloud MPA. As such, it is the responsibility of the APO to update the TIP.

Projects identified through the TIP process serve to implement the projects identified in the APO's Metropolitan Transportation Plan (MTP).

Saint Cloud Area Planning Organization

The APO Urbanized Area is designated by the U.S. Census Bureau after every decennial census. Criteria for defining this area include population density and density of development. The APO, in conjunction with the Minnesota Department of Transportation (MnDOT), approves a 20-year planning boundary that includes not only the Census-defined Urbanized Area, but also considers expected urbanized growth within that time period.

Member jurisdictions include Benton County, Sherburne County, Stearns County, City of Saint Cloud, City of Saint Joseph, City of Sartell, City of Sauk Rapids, City of Waite Park, and LeSauk Township. Saint Cloud Metropolitan Transit Commission (MTC) – more commonly referred to as Saint Cloud Metro Bus – is also a member.

The cities of Rockville, Saint Augusta, and Saint Stephen along with Brockway Township, Haven Township, Minden Township, Saint Joseph Township, Saint Wendel Township, Sauk Rapids Township, and Watab Township are located within the designated APO 20-year planning boundary but are not formal member jurisdictions. Instead, these jurisdictions are represented through the respective counties.

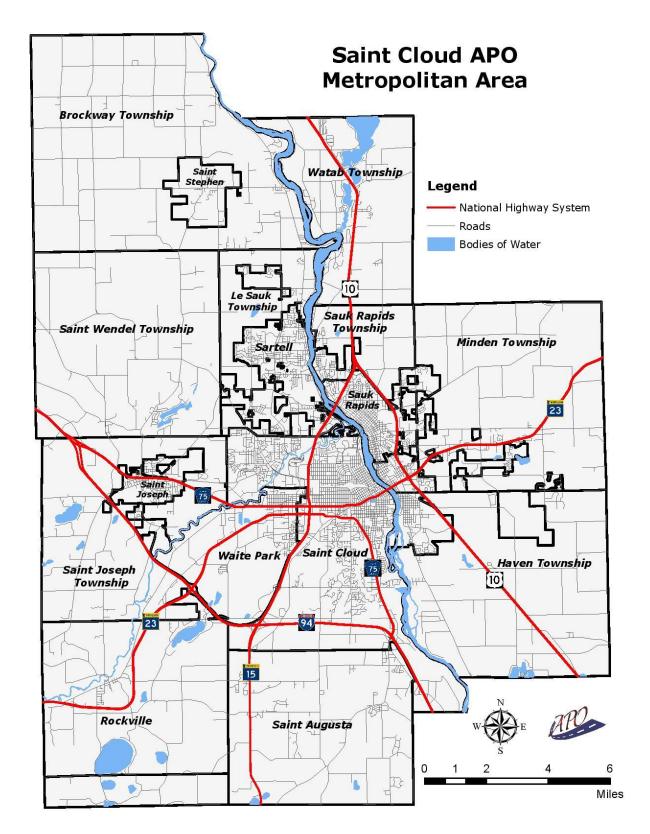

Figure 1: APO Planning Area Map.

As a comprehensive, intergovernmental transportation planning agency for the Saint Cloud MPA, the APO works with member agencies and jurisdictions to facilitate local, state, and Federal funds for programs and improvement projects.

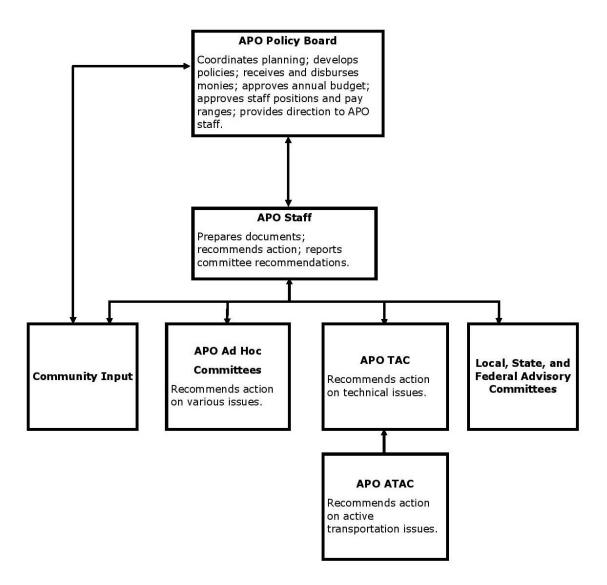

Figure 2: APO Organizational Chart.

The APO Policy Board is made up of elected officials and a senior-level management position from Saint Cloud MTC. The Policy Board is the decision-making body of the APO and provides guidance and direction to staff. The Policy Board is advised by a Technical Advisory Committee (TAC) and a TAC subcommittee for bicycle and pedestrian issues.

The APO is committed to coordinated planning – in a fair and mutually beneficial manner – on select issues transcending jurisdictional boundaries for the betterment of the entire Saint Cloud MPA. This mission is accomplished through professional planning initiatives, the provision of objective information, and building collaborative partnerships that foster consensus.

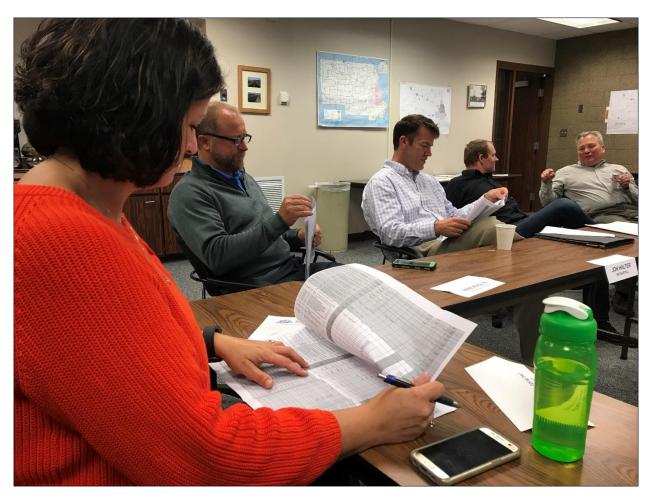

Figure 3: Members of the Saint Cloud APO's TAC. Photo courtesy of Saint Cloud APO.

The APO strives to be:

- Public service-oriented by providing accountability to constituents and exhibiting the highest standards of ethical conduct.
- Creative problem solvers by anticipating potential challenges and developing creative solutions based on professional knowledge, public involvement, and collaboration with our partners.
- Continuous learners who constantly seek new information, knowledge, and skills to better serve the Saint Cloud MPA.

In the transportation planning process, the APO's role includes:

- Maintaining a certified "3-C" transportation planning process: comprehensive, cooperative, and continuing.
- Coordinating the planning and implementation activities of local, regional, and state transportation agencies.
- Undertaking an effective stakeholder engagement process which ensures meaningful public input is part of the decision-making process behind plans and programs.
- Providing leadership both in setting transportation policy and in metropolitan system planning.
- Lending technical support in planning and operations to local governments.

 Planning for an intermodal transportation system that is economically efficient, environmentally sound, provides the foundation to compete in the global economy, and will move people and goods in an energy-efficient manner.

The Transportation Improvement Program

The TIP is a federally mandated, annually prepared document that contains highway, transit, and other transportation projects that are programmed for Federal funding during the next four years in the metropolitan area.

The projects included in each year's TIP are ultimately derived from the APO's Metropolitan Transportation Plan (MTP) and are aimed at meeting the long-range needs of the transportation system.

Agencies and jurisdictions propose projects to the APO on an annual basis to be coordinated into a comprehensive listing of the area's federally funded transportation improvements planned for the next four years.

The APO TIP document includes projects from the Minnesota Department of Transportation (MnDOT) District 3 (D3) in the APO's planning area, Saint Cloud MTC, and local projects from member jurisdictions. Local projects that are fully funded by a township, city, or county are not included in the APO TIP unless they are regionally significant.

All regionally significant projects – those requiring action by the Federal Highway Administration (FHWA) or Federal Transit Administration (FTA), regardless of funding source – are also included in the TIP. Within the APO, a project is considered of regional significance if it is funded, in part, through the use of Federal dollars from either FHWA or FTA or if it is a MnDOT sponsored project regardless of funding source.

Projects programmed into the TIP must comply with regulations issued by FHWA and FTA.

Projects can be revised or amended at any time during the program year by action of the APO Policy Board. These listings include information regarding cost, specific funding sources, project timing, etc.

As a management tool for monitoring the progress of implementing the MTP, the TIP identifies criteria and a process for prioritizing implementation of transportation projects – including any changes in priorities from the previous TIP that were implemented – and identifies any significant delays in the planned implementation of other projects.

Projects in the TIP represent a commitment on the part of the implementing jurisdiction or agency to complete those projects.

TIP projects programmed for the Saint Cloud MPA are included, without change, in the D3 Area Transportation Improvement Program (ATIP) and subsequent Minnesota Statewide Transportation Improvement Program (STIP) (https://bit.ly/2Sstfvj).

The TIP and Its Connection to the Metropolitan Transportation Plan

As previously stated, projects reflected in the fiscal year (FY) 2020-2023 TIP originate from the <u>Saint Cloud APO's Metropolitan Transportation Plan (MTP)</u> (https://bit.ly/35Qwgwp). The MTP contains a list of short-, mid-, and long-range transportation projects that are planned for the metropolitan area over a minimum 20 year time frame.

Figure 4: Saint Cloud APO's Metropolitan Transportation Plan MAPPING 2045 logo. Photo courtesy of Saint Cloud APO.

Projects identified in the MTP

The APO's MTP has identified 27 expansion projects for the metropolitan planning area to tentatively be completed by 2045. Those projects are listed in Figures 5 and 6.

| Project ID | Project Location Beginning and Ending Termini | | Post-Construction Facility Type |
|--|--|--|------------------------------------|
| BEN-1 | CSAH 1 (Mayhew Lake Road NE) in Sauk Rapids | CSAH 29 (35 th Street NE) to MN 23 | Four-Lane Undivided Arterial |

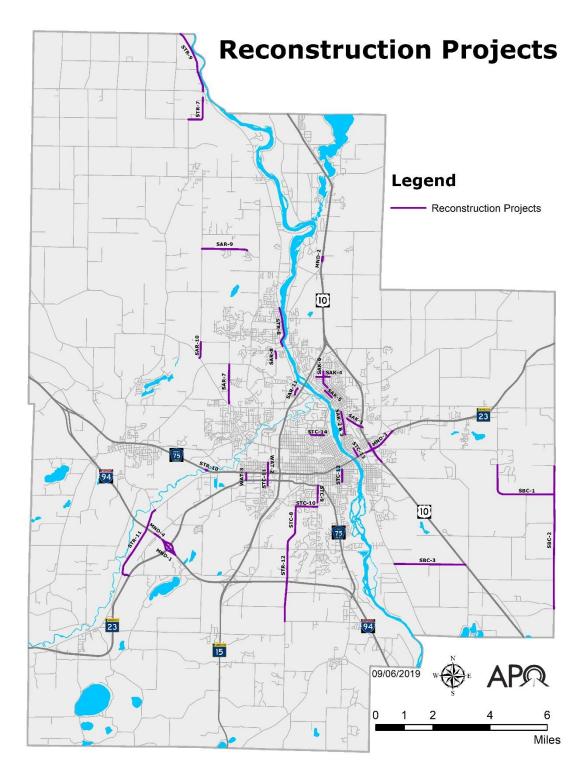

Figure 8: MAPPING 2045 roadway reconstruction projects.

Other projects within the MTP

The regional transportation goals and objectives identified in the MTP set the broad policy framework for planning transportation improvements in Saint Cloud MPA. Projects

programmed into the TIP are intended to come from the MTP or support the long-range goals and objectives established in that framework.

Those goals include:

- 1. Develop and maintain a transportation system that is safe for all users.
- 2. Increase the accessibility and mobility options for people and freight across and between all modes for all users.
- 3. Develop a transportation system that is cost-feasible, maintains a state of good repair, and satisfies public transportation priorities.
- 4. Support the economic vitality of the APO's MPA by enabling global competitiveness, productivity, and efficiency while enhancing travel and tourism.
- 5. Support transportation improvements that promote energy conservation and improve public health and quality of life, while sustaining and improving the resiliency and reliability of the transportation system.

Programming the TIP

MnDOT has established eight <u>Area Transportation Partnerships (ATPs)</u> (https://bit.ly/2VRxBxC) throughout the state to manage the programming of Federal transportation projects. Each of these ATPs is responsible for developing a financially constrained ATIP that is submitted for Federal funding approval and incorporated into a financially constrained STIP.

MnDOT D3 is represented by ATP-3 (www.dot.state.mn.us/d3/atp).

As the designated MPO for the Saint Cloud urbanized area, the APO must develop its own TIP that is incorporated into the Central Minnesota ATIP and subsequently, the STIP. The TIP must be consistent with the STIP.

The TIP project solicitation and development process begins in November. Projects originate from three main areas:

- 1. APO Transportation System Performance report.
- 2. APO Metropolitan Transportation Plan.
- 3. Implementing jurisdiction and/or agency project submittals.

Projects meeting the minimum qualifying criteria are prioritized by the APO's TAC into one intermodal project list. Prioritization considerations include the following:

- 1. Technical engineering criteria developed by the Central Minnesota ATP-3.
- 2. APO non-technical considerations including public involvement, project deliverability, regional benefit, funding equity, and non-vehicular accommodations.
- 3. APO sub-targeted local Federal funding available as listed in the <u>Project Selection</u> section.

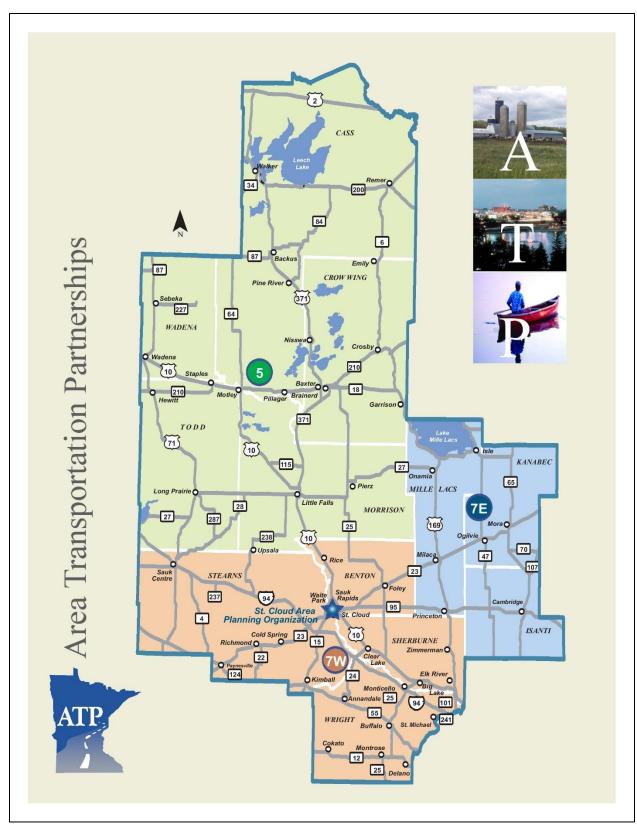

Figure 9: Map of the Central Minnesota ATP-3. Photo courtesy of MnDOT.

In addition, the current Federal transportation bill, <u>Fixing America's Surface Transportation</u> (FAST) Act (www.fhwa.dot.gov/fastact/) [23 U.S.C. § 134(f)] has a set of planning factors that must be considered in the transportation planning process. They are as follows:

- 1. Support economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- 2. Increase the safety of the transportation system for motorized and non-motorized users.
- 3. Increase security of the transportation system for motorized and non-motorized users.
- 4. Increase the accessibility and mobility of people and for freight.
- 5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- 6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
- 7. Promote efficient system management and operation.
- 8. Emphasize the preservation of the existing transportation system.
- 9. Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation.
- 10. Enhance travel and tourism.

A prioritized list is then forwarded to the APO's Policy Board for approval or modification.

Funding Sources

Projects included in the TIP will be funded by one or more of the following funding categories. Legislation allows MnDOT to reserve the ability to determine which of these funding categories – and how much of each – will ultimately be used to fund any given project in the TIP. As such, the amounts and types of funding shown in the project tables may be subject to modifications.

Bonds (BF)

Funding identified as BF in the TIP indicate that projects are being funded almost exclusively with bond funds.

Federal Transit Administration (FTA)

Transit funding authorized by the FAST Act is managed in several ways. The largest amount is distributed to the states by formula; other program funds are discretionary. FTA transit allocations may be administered by the state or be granted directly to the transit agency. Projects identified as FTA-funded in the TIP are generally funded by one of several subcategories that represent different programs administered by the FTA to provide either capital or operating assistance to public transit providers.

Highway Safety Improvement Program (HSIP)

The Highway Safety Improvement Program is aimed at achieving a significant reduction in traffic fatalities and serious injuries on all public roads and is related to addressing conditions identified in a state's Strategic Highway Safety Plan (SHSP). Funds – allocated based upon merit by MnDOT's Office of Traffic Safety and Technology – may be used for a variety of safety improvements on any public road. Publically owned bicycle and pedestrian pathways or trails are also eligible for HSIP dollars. The Federal share is 90 percent (for

certain projects it can be 100 percent), and up to 10 percent of a state's HSIP funds can be used to help fund other activities including education, enforcement, and emergency medical services.

Highway Rail Grade Crossing & Rail Safety (RRS)

Railroad-highway grade crossing safety is funded under 23 USC Section 130. The current Federal participation for railroad-highway grade crossing safety improvement projects is 100 percent of the cost of warning system. Normally it is expected that the local road authority will pay for roadway or sidewalk work that may be required as part of the signal installation. Limited amounts of state funds are available for minor grade crossing safety improvements.

Local Funds (LF)

Funding identified as LF in the TIP indicate projects that are being funding almost exclusively with local funds, but are identified as regionally significant and are therefore included in the TIP.

National Highway Performance Program (NHPP)

The NHPP provides support for the construction and performance of the NHS, for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a state's asset management plan for the NHS.

State Funds (SF)

Funding identified as SF in the TIP indicate that projects are being funded almost exclusively with state funds. Funding sources include, but are not limited to, motor fuel, vehicle sales tax, and general fund transfers.

Surface Transportation Block Grant Program (STBGP)

The Surface Transportation Block Grant Program (STBGP) provides flexible funding that may be used by States and localities for projects to preserve and improve the conditions and performance on any Federal-aid highway, bridge and tunnel projects on any public road, pedestrian and bicycle infrastructure, and transit capital projects, including intercity bus terminals. States and localities are responsible for a minimum 20 percent share of project costs funded through this program. See Project Selection section for more information on how projects within the APO's MPA qualify for this type of funding.

Transportation Alternatives (TA)

The Transportation Alternatives (TA) is a revision of the former Transportation Enhancements program under the *Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users* (SAFETEA-LU; 2005) and now funds projects that were previously funded under the Recreational Trails and Safe Routes to School programs. Eligible projects include, but are not limited to, the creation of facilities for pedestrians and bicycles, environmental mitigation or habitat protection as related to highway construction or operations, as well as infrastructure and non-infrastructure related to Safe Routes to School (SRTS) activities. States and localities are responsible for a minimum 20 percent of TA funds applied to projects. States may also transfer up to 50 percent of TA funds to NHPP, STBGP, HSIP, Congestion Mitigation and Air Quality (CMAQ), and/or metropolitan planning. Local ATPs are in charge of selecting projects for the solicitation. See <u>Project Selection</u> section for more information on how projects within the APO's MPA qualify for this type of funding.

Project Selection

APO member jurisdictions and agencies that are interested in pursuing transportation projects within the MPA must follow a specific process and satisfy certain criteria.

To be included within the APO's TIP the project must be identified directly and/or support one or more of the goals established with the APO's MTP. Depending on the funding source, the proposed project may need to be reviewed and competitively scored by APO staff and/or at the MnDOT D3 level.

Surface Transportation Block Grant Program (STBGP) Scoring Process

Surface Transportation Block Grant Program funding is received by the state via the Federal government. With that pre-determined sum of funding, MnDOT allocates approximately half of those Federal dollars to the Twin Cities metro area. The remaining half is then divided among the greater Minnesota ATPs.

In MnDOT D3, STBGP funding is further divided among specific regions within the district – Region 5 Development Commission (www.regionfive.org), East Central Regional Development Commission (7E) (www.ecrdc.org), Region 7W Transportation Policy Board (www.dot.state.mn.us/d3/region7w/index.html), and Saint Cloud APO – based upon a formula that takes into account the roadway network system size and use factors. Regions, like the APO, can then use these funding targets to assist in setting individual transportation priorities.

For the APO MPA, APO staff initiate the solicitation process for projects. Jurisdictions and agencies within the APO's MPA complete an application form for funding that is consistent across MnDOT D3. APO staff the review, score, and rank those submitted applications using a technical merit scoring rubric.

Staff scores and rankings are brought before the APO's TAC. TAC members use these scores and rankings as guidance to prioritize projects to the level of STBGP funds targeted to the region by ATP-3 through MnDOT's ATP Managed Program distribution. The TAC usually defers to the APO staff scores for the rest of the applicant projects considered beyond the availability of funding or fiscal constraints of the APO.

APO staffers forward the fiscally constrained and ranked list of projects to MnDOT D3 for consideration by the ATP-3 ATIP subcommittee.

The subcommittee will compile all the scoring and rankings by the various sub-regions of MnDOT D3/ATP-3 and will rank all submitted projects into a unified ranked list based on the merit of the project, requested funding amount, and regional equity. These project rankings are typically deferred to the project list developed by each of the MnDOT D3 sub-regions.

While projects may not get funded if they are not ranked high enough by the ATP-3 ATIP subcommittee, typically every project that has been ranked and fiscally constrained by subregions, will receive funding. The overall ranking by the ATP-3 ATIP subcommittee is used only if Congress and/or the State Legislature drastically cuts transportation funding during their respective sessions.

More information about STBGP funding can be found in the <u>Funding Sources</u> section of this chapter.

Transportation Alternatives (TA) Scoring Process

Jurisdictions within the APO's MPA interested in applying for <u>Transportation Alternatives</u> (<u>TA</u>) funding (www.dot.state.mn.us/ta/) first must submit a letter of intent to the MnDOT D3 Office. The full application is only distributed to applicants that have successfully completed the letter of intent process and said letter has been reviewed by APO staffers to ensure the ability of the applicant to meet the requirements necessary to be competitive in the grant application.

Once the completed application has been submitted to the D3 Office by the jurisdiction, D3 Office planners compiles all of the submitted applications across the district and distributes them to various regional planning representatives including the APO for scoring. This scoring system is based upon a rubric developed by ATP-3.

APO staffers score all of the projects based upon this rubric. In addition, the APO is allowed to award an additional 10 and five bonus points to the top two TA projects that are submitted by APO member jurisdictions that will be completed within the MPA. Bonus points are awarded based on factors that include, but are not limited to, a) application's total technical score and b) APO TAC recommendation on regional needs. Those scores, along with those by other regional planning representatives across the district, are then submitted back to the district.

MnDOT D3 convenes a TA subcommittee to review all the scores submitted by the regional planning representatives. This TA subcommittee is responsible for recommending projects – across MnDOT D3 – based upon the final combined rankings that would be eligible for the limited TA funding available.

These recommendations are then brought before the full ATP-3 board for possible inclusion into the ATIP. If an APO MPA project or projects are awarded funding, those projects are subsequently incorporated into the TIP.

More information about TA funding can be found in the <u>Funding Sources</u> section of this chapter.

Fiscal Constraint and Environmental Justice

The TIP is fiscally constrained by year and includes a financial analysis that demonstrates which projects are to be implemented using existing and anticipated revenue sources, while the existing transportation system is being adequately maintained and operated.

The financial analysis was developed by the APO in cooperation with MnDOT, Saint Cloud MTC, and local jurisdictions who provided the APO with historic transportation expenditures and forecasted transportation revenue.

In developing the financial plan, the APO took into account all projects and strategies funded under Title 23, U.S.C., and the Federal Transit Act, other Federal funds, local sources, State assistance, and private participation.

A detailed look at fiscal constraint can be found in Chapter 4.

This TIP also includes an Environmental Justice (EJ) evaluation to determine if programmed projects will have a disproportionate impact on people-of-color and/or low income populations, consistent with the 1994 Executive Order 12898: Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations.

A further look at TIP programmed projects in comparison to EJ areas can be found in Chapter 2.

Public Involvement

The APO affords opportunities for the public and other interested parties to comment on the proposed and approved TIP. Public meeting notices are published in the St. Cloud Times – the newspaper of record for the APO – and the TIP document is made readily available for review and comment.

The TIP public participation process is consistent with the APO's <u>Stakeholder Engagement</u> <u>Plan</u> (https://bit.ly/2s5p2WN), updated in January 2019. The process provides stakeholders a reasonable opportunity to comment on the TIP.

<u>Chapter 5</u> provides a more comprehensive look at public involvement used in developing the FY 2020-2023 TIP.

Self-Certification

The State and the APO must annually certify to FHWA and FTA that the planning process is addressing the major issues facing the area and is being conducted in accordance with all applicable requirements of:

- 1. 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- 2. In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
- 3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- 5. Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
- 6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- 7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
- 8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance,
- 9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- 10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

FHWA and FTA must jointly find that the TIP is based on a 3-C planning process between MnDOT, the APO, and Saint Cloud MTC. This finding shall be based on the self-certification statement submitted by MnDOT and the APO. Joint certification action will remain in effect for three years unless a new certification determination is made sooner.

CHAPTER ONE: FY 2020-2023 TIP PROJECTS

The following section lists all of the transportation projects scheduled for Federal and/or state funding in the Saint Cloud MPA. See <u>Appendix A</u> for the APO's FY 2020-2023 TIP project table.

Of note, projects with Advance Construction (AC) – the total estimated amount of future Federal funds being committed to a project, front-ended by jurisdictions and/or agencies – or multiple projects with the same scope of construction work are combined and listed under the first year of appearance within the FY 2020-2023 TIP.

2020 Saint Cloud Metro Bus Operating Projects

| Project Number | Description | Estimated Total Project Cost | Programmed Funds Breakdown |
|-------------------|------------------------------|---------------------------------|-------------------------------------|
| TRF-0048-20 | Operating Assistance | \$9,400,000 | FTA: \$1,340,000 LF: \$8,060,000 |

Corridor Preservation Study Year: 2020

Status updates:

July 23, 2019: This project was added to the Saint Cloud APO's Unified Planning Work Program (UPWP). The project will examine economic, environmental, and social impacts of various potential alignments for CSAH 133. The study will also develop a construction cost estimate.

Nov. 12, 2019: Preparing Request for Proposal. Meeting with District 3 State Aid Engineer Kelvin Howieson anticipated soon.

2020 Sauk Rapids Benton Drive

Photo courtesy Google Maps.

Estimated project cost: \$2,528,678

Construction year: 2020

Project Description

Urban Reconstruction Along MSAS 109 (Benton Drive) from Summit Avenue S to US 10. This Work Includes Roadway, Sidewalk, Drainage, and Lighting.

Project Number: 191-109-006. **Funding Source:** STBGP 5K-200K

Project Scope: 0.51 miles

Project Sponsor: City of Sauk Rapids

Project Contact: Terry Wotzka, City Engineer 320-

229-4321 twotzka@sehinc.com

| Programmed Funds Breakdown | Total |
|-------------------------------|-------------|
| FHWA | \$1,624,703 |
| LF | \$903,975 |

Status updates: Oct. 21, 2019: Per Terry Wotzka — Project Memorandum has been approved. The final design is nearly completed and it is anticipated that the plans will be sent in to State Aid for review before the end of October. There is minimal Right-of-Way acquisition. We anticipate a bid letting in February 2020 with construction completion anticipated at the end of September 2020. The project is on schedule.

2020 Saint Cloud 33rd Street S Alignment

Photo courtesy Saint Cloud APO

Project Description

Exploring Options for the Alignment of the 33rd Street S Mississippi River Bridge. This Project Will Also Look at Connecting the Corridors between CSAH 75 (Roosevelt Road) and US 10.

Project number: 091-070-027

Funding Source: FHWA DEMO Funds

Project Scope: N/A

| Programmed Funds | Total |
|------------------|-----------|
| FHWA | \$107,000 |
| LF | \$60,000 |

Estimated project cost: \$167,000

Corridor Preservation Study Year: 2020

Status updates:

July 23, 2019: This project was added to the Saint Cloud APO's Unified Planning Work Program (UPWP). This project update a 2005 planning study on the preferred alignment of the 33rd Street S river crossing and will identify potential economic, political, social, and environmental consequences of possible alignments.

Nov. 7, 2019: Request for Proposal is in the process of being drafted. Anticipated RFP to be released after the first of the year.

Jan 17, 2020: Project sponsor changed from City of Saint Cloud to Saint Cloud APO. Project number changed from 162-020-037 to 091-070-027. Changes initiated by MnDOT. Local funds for project are still being generated by City of Saint Cloud.

Project Sponsor: Saint Cloud APO

2022 Stearns County CSAH 75 from MN 15 to Cooper Avenue

Photo courtesy of Google Maps

Estimated project cost: \$1,537,640

Construction year: 2022

Project Description

Mill and Overlay on CSAH 75 from MN-15 to Cooper Avenue in Saint Cloud.

Advance Construction

Payback in FY 2023.

Project Number:

2022:073-675-041 **2023:** 073-675-041AC

Funding Source: NHPP

Project Scope: N/A

| Programmed Funds Breakdown | Total |
|--|-----------|
| Advance Construction (Payback in 2023) | \$615,056 |
| LF (2022 Only) | \$922,584 |

Status updates:

May 21, 2019: Project was incorporated into the FY 2020-2023 TIP table. Per Kelvin Howieson, MnDOT D3 State-Aid Engineer, Stearns County receives NHPP funding every year for CSAH 75. This entry is a placeholder for a project yet to be determined by the county.

August 2019: Project has been identified to be a mill and overlay on County Road 75 from MN-15 to Cooper Avenue. This description, along with the updated project number (073-675-041) will need to be processed as an amendment to the Transportation Improvement Program. A formal change is anticipated in February 2020.

Nov. 12, 2019: Project plans and project memorandum have not yet been started. These items should be completed by December 2021 and a letting date in February 2022 is expected.

Dec. 30, 2019: Local match is increasing from \$307,528 to \$922,584. This is due to Federal funds needing to be pulled from this project to cover cost increase to 073-675-040. Overall project cost will remain the same.

2023 Stearns County Beaver Island Trail Extension

Photo courtesy Google Maps.

Estimated project cost: \$1,740,000

Construction year: 2023

Project Description

Extending the Beaver Island Trail From Opportunity Park in the City of Saint Cloud to the River County Rail in the City of Clearwater.

Project Number: 073-090-012

Funding Source: STBGTAP 5K-200K

Project Scope: 4.5 miles (a majority of construction will take place outside of the APO's

MPA).

| Programmed Funds Breakdown | Total |
|-------------------------------|-------------|
| FHWA | \$400,000 |
| | |
| LF | \$1,340,000 |
| | |

Status updates:

CHAPTER TWO: ENVIRONMENTAL JUSTICE

In 1994, Presidential Executive Order 12898 mandated that every Federal agency incorporate EJ in its mission by analyzing and addressing the effects of all programs, policies, and activities on minority and low-income populations.

Drawing from the framework established by Title VI of the Civil Rights Act of 1964, as well as the 1969 National Environmental Policy Act (NEPA), the U.S. Department of Transportation set forth the following three principles to ensure non-discriminatory practices in its federally funded activities:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority and low-income populations.
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

While it is difficult to make significant improvements to transportation systems without causing impacts of one form or another, the concern is whether proposed projects disproportionately negatively affect the health or environments of minority or low-income populations. In the past, the impacts on these groups were often overlooked as potential criteria for project evaluation.

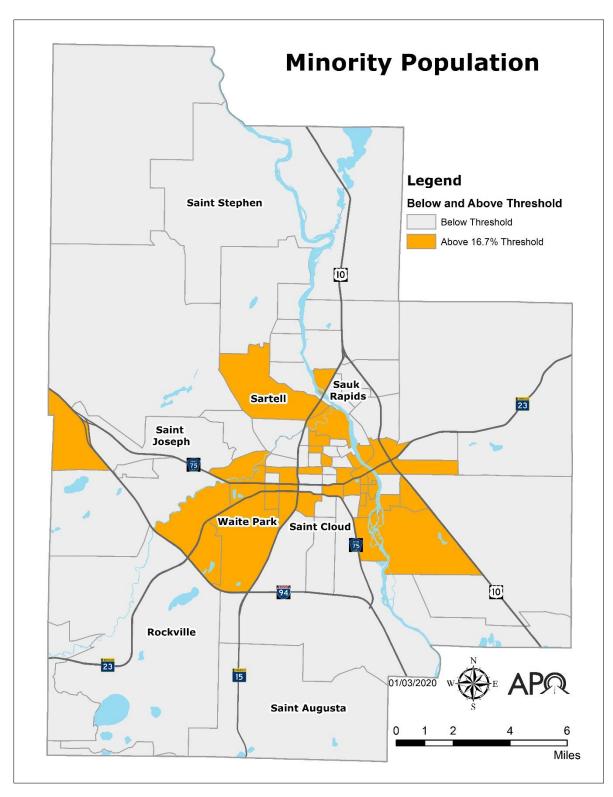

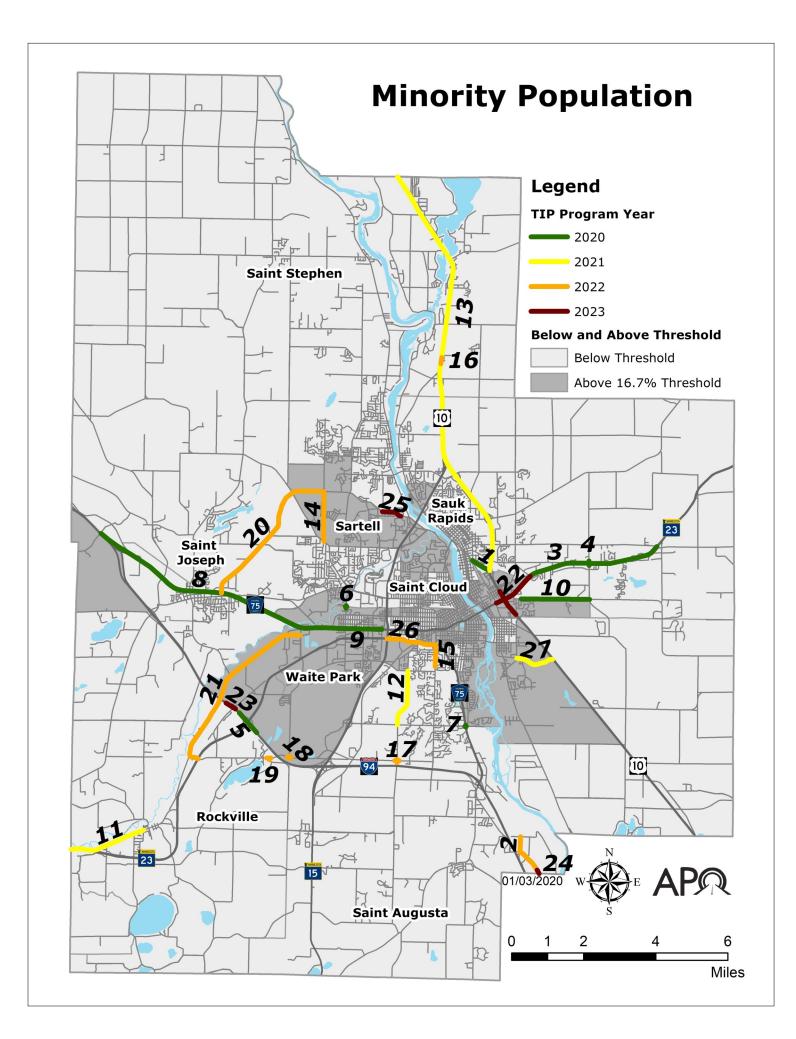

Figure 11: Percent of APO member jurisdiction's minority population by Census block group. According to the U.S. Census Bureau's 2014-2018 American Community Survey Five Year Estimates, a total of 22,563 residents (out of 135,441) have been identified as being from a minority population. This corresponds to a regional average of 16.7 percent of the APO's planning area population. Data courtesy of U.S. Census Bureau's 2014-2018 ACS Five Year Estimates.

Figure 14: Map of the APO's FY 2020-2023 TIP projects and the proximity to areas with a high concentration of households below the poverty level.

In addition to considering concentrations of minority and low-income populations, the Saint Cloud APO has elected to consider other populations that could be adversely impacted by transportation such as those highlighted specifically by Title VI. Those populations include people with disabilities, limited English proficient populations, zero vehicle households, people age 65 and older, and people age 18 and younger. A more detailed demographic breakdown can be found in the APO's <u>Stakeholder Engagement Plan (SEP)</u> (https://bit.ly/2s5p2WN).

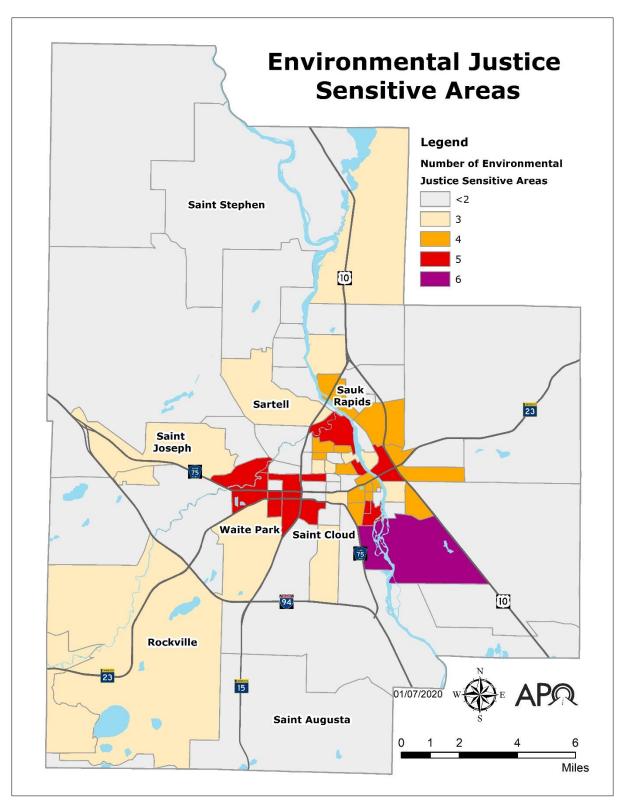

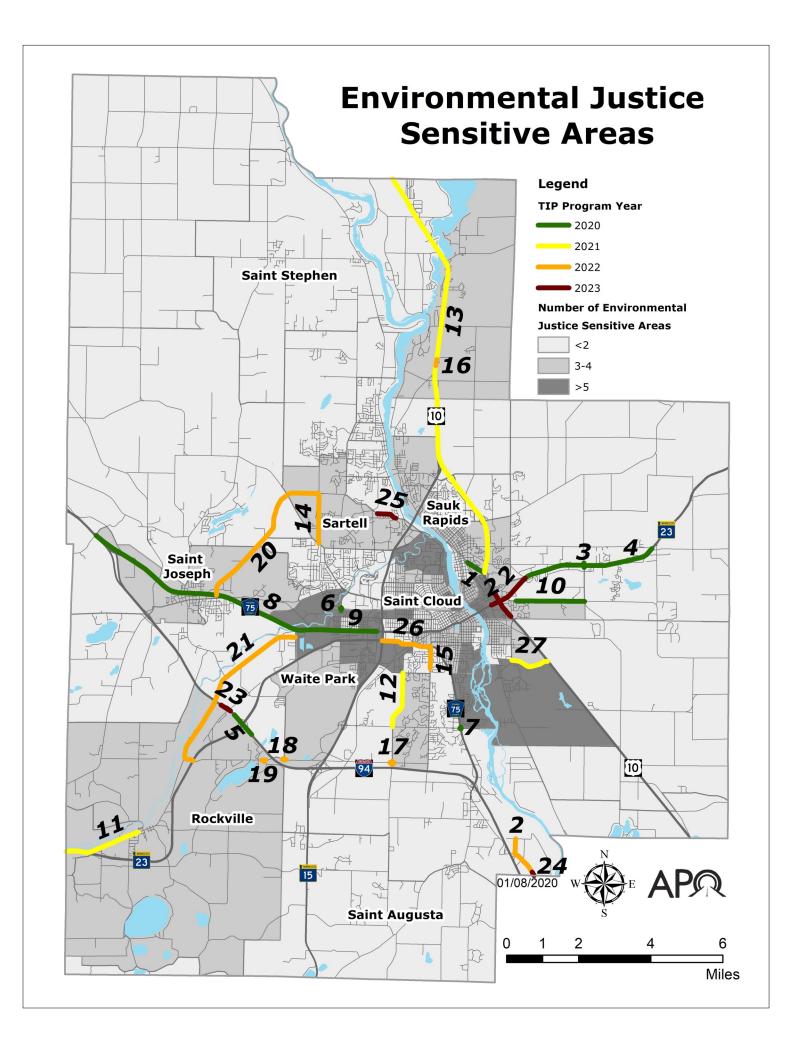

Figure 15: APO EJ and Title VI sensitive areas map encompassing minority populations, households living in poverty, people with disabilities, limited English proficient populations, zero vehicle households, people over age 65, and people under age 18. Of note, no one Census block group had all seven factors present. Data courtesy of U.S. Census Bureau's 2014-2018 ACS Five Year Estimates. Data reflecting people with disabilities is courtesy of U.S. Census Bureau's 2013-2017 ACS Five Year Estimates due to technical issues in mapping the most recent data.

Figure 16: Map of the APO's FY 2020-2023 TIP projects and the proximity to areas with high concentrations of EJ and Title VI populations.

A project is defined as having the potential to have an adverse EJ effect if any portion of a project intersected with the defined boundaries of a Census block group with a high percentage of minority population or a block group with a high percentage of population below the poverty level.

A total of 19 projects intersect, at least in part, with block groups with high percentage of minority populations. A total of 13 projects intersect with block groups with a high percentage of households living in poverty. The projects, identified in Figure 17, include several safety improvements and roadway reconstruction projects. Projects excluded from this list include MnDOT D3 set asides – as those dollars may or may not be allocated to areas inside the APO planning area – and transit projects – which benefit nearly the entire APO planning area.

| | Population | Population Percentage | TIP Investment | Percentage of TIP Investment |
|-------------------------|------------|--------------------------|-------------------|------------------------------------|
| Minority Population | 22,563 | 16.7% | \$57,275,665 | 88% |
| Non-Minority Population | 112,878 | 83.3% | \$8,151,863 | 12% |
| Total | 135,441 | 100% | \$65,427,528 | 100% |

Figure 17: Minority population within the APO planning area and TIP project investments within the APO area excluding MnDOT districtwide set asides and transit projects. Population data courtesy of U.S. Census Bureau, 2014-2018 American Community Survey Five Year Estimates. TIP data courtesy of Saint Cloud APO.

| | Households | Household Percentage | TIP Investment | Percentage of TIP Investment |
|----------------------------------|------------|-------------------------|-------------------|------------------------------------|
| Households with low-income | 7,756 | 14.8% | \$41,166,624 | 63% |
| Non-low- income households | 44,634 | 85.2% | \$24,260,904 | 37% |
| Total | 52,390 | 100% | \$65,427,528 | 100% |

Figure 18: Low-income households within the APO planning area and TIP project investments within the APO area excluding MnDOT districtwide set asides and transit projects. Household data courtesy of U.S. Census Bureau, 2014-2018 American Community Survey Five Year Estimates. TIP data courtesy of Saint Cloud APO.

As is evident in the charts above, a majority of TIP investment projects occur within Census block groups identified as having populations above the respective thresholds for minority and low-income populations. These projects, however, primarily focus on safety improvements and/or system preservation for the transportation network. Both of these styles of projects have lasting benefits for the entire region. While construction could have adverse impacts on populations living within close proximity of the project – i.e. delays, detours, noise, and dust – once complete, the projects are anticipated to result in positive benefits such as increased capacity, lower commute times, increased safety, and the addition of bicycle and pedestrian facilities to neighborhoods. It will fall upon the agencies and jurisdictions implementing the project to work toward mitigating and/or minimizing adverse impacts of project construction to both the traveling public and neighborhood areas.

In addition, the completion of the identified TIP projects will aid the APO in achieving its regional performance measures and targets as identified in the next chapter.

CHAPTER THREE: PERFORMANCE MEASURES

Titles 23 and 49 of United States Code (USC) require that planning agencies such as the APO utilize performance measures and monitoring to help inform the transportation investment decision-making process.

According to 23 CFR 450.326(d):

The TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets.

Performance measures are designed to serve as a benchmark to evaluate and quantify progress. This performance-based approach is meant to improve accountability of Federal transportation investments, assess risks related to different performance levels, and increase transparency.

APO staff have updated the MTP through planning horizon 2045. During this process, staff have incorporated federally mandated performance measures into the MTP. In addition, APO staff have been working to develop a variety of other performance measures to assist in future planning and project implementation. It is the goal that these performance measures incorporated into the MTP will help further align current and future TIP-programmed projects with the overall goals and objectives established in the MTP.

Based on the <u>Transportation Performance Management (TPM)</u> (www.fhwa.dot.gov/tpm/) assessment tool, the APO is currently working towards a maturity level 2, the developing phase. Work is underway to strengthen transportation performance management in the APO. A transportation performance management framework is being defined to provide alignment across the organization and across different planning and programming functions. Modifications to data collection and management processes and analysis tools are being planned in order to better support the performance framework. Organizational roles are being defined, and a strategy for training and workforce development in support of transportation performance management is being developed.

- 1. **Strategic Direction:** The APO is developing a collaborative process to set goals and objectives, with linkages between agency functions and broader societal concerns still being clarified.
- 2. **Target Setting:** The APO is collaboratively developing a methodology to understand baselines and set targets within agreed-upon performance areas.
- 3. **Performance-Based Planning:** The APO is defining a data-driven process for understanding current and future performance to identify and develop strategies.
- 4. **Performance-Based Programming:** The APO is developing a performance-based programming methodology and process that will enable project selection to reflect agency goals, priorities determined in planning documents, funding constraints, risk factors, and relative needs across performance areas.
- 5. **Monitoring and Adjustment:** The APO is developing a plan for system and program/project monitoring tied to the strategic direction, including definition of output and outcome measures, frequency, data sources, external influencing factors and users.

6. **Reporting and Communication:** The APO is defining requirements for internal reports to ensure consistency, alignment with strategic direction, and provision of actionable information.

Anticipated Effect

The following are a list of federally mandated performance measures that have been incorporated into the FY 2020-2023 TIP. Methods of calculation for each of these performance measures are based on the guidelines outlined by the TPM assessment tool (https://www.fhwa.dot.gov/tpm/rule.cfm) and can be found in Appendix B.

Roadway Safety Performance Measures

- 1. Number of Fatalities.
- 2. Rate of Fatalities.
- 3. Number of Serious Injuries.
- 4. Rate of Serious Injuries.
- 5. Number of Non-Motorized Fatalities and Serious Injuries.

Roadway Accessibility, Mobility, and Connectivity Performance Measures

- 1. Annual Percent of Person-Miles Traveled on the Interstate that are Reliable.
- 2. Annual Percent of Person-Miles Traveled on the Non-Interstate NHS that are Reliable.
- 3. Annual Vehicle Miles Traveled.

Transit Management and Preservation Performance Measures

1. State of Good Repair for Equipment, Facilities, and Rolling Stock.

Roadway Metropolitan Vitality and Economic Development Performance Measures

1. Truck Travel Time Reliability Index.

Roadway Management and Preservation Performance Measures

- 1. Interstate System Pavement Conditions.
- 2. Non-Interstate NHS Pavement Conditions.
- 3. Pavement Maintenance.
- 4. Bridge Conditions.

| PERFORMANCE MEASURE | MnDOT's 2020 & 2022 Targets | APO Baseline Measurement | APO's 2021 Target |
|---|--|--|---|
| NHS Pavement Condition | | | |
| Percentage of pavements of the Interstate System in Good condition | 55% | 90.27% | 85% |
| Percentage of pavements of the Interstate System | 33 /0 | 90.2770 | 03 70 |
| in Poor condition | 2% | 0.26% | 1% |
| Percentage of pavements of the non-Interstate NHS in Good condition | 50% | 58.72% | 60% |
| Percentage of pavements of the non-Interstate NHS in Poor condition | 4% | 0.80% | 1% |
| NHS Bridge Condition | | | |
| Percentage of NHS bridges classified as in Good condition | 50% | 64.2% | 60% |
| Percentage of NHS bridges classified as in Poor | 3070 | 011270 | 3370 |
| condition | 4% | 0% | 1% |
| NHS Performance | | | |
| Percent of person-miles traveled on the Interstate that are reliable | 80% | 100% | 100% |
| Percent of person-miles traveled on the non- Interstate NHS that are reliable | 75% | 97% | 90% |
| Interstate Freight Movement | | | |
| Truck Travel Time Reliability (TTTR) Index (minutes) | 1.5 | 1.1 | 1.24 |
| | MnDOT's | | |
| PERFORMANCE MEASURE | 2019 Targets | APO Baseline Measurement | APO's 2020 Target |
| PERFORMANCE MEASURE Roadway Safety | 2019 | | |
| | 2019 | | |

Figure 20: A list of incorporated performance measures in the APO's FY 2020-2023 TIP and performance targets for those performance measures.

Federal regulations require the APO to either 1) support MnDOT's performance targets for each performance measure, or 2) set its own regional target(s). The APO has decided to set its own targets for each of the performance measures.

Overall, the targets established by MnDOT have been determined to be of limited value to the APO, especially when compared with the existing conditions and priorities of the APO. Therefore, by adopting differing targets from the state, the APO can focus on localized issues within its region and target funding that will work toward the goals of the APO as established within the MTP.

A closer look and explanation of the APO's performance targets are listed below.

Roadway Safety

All of the safety targets the APO has adopted are lower than MnDOT's targets.

For example, MnDOT has adopted a yearly target of 372 fatalities in 2019 (2020 targets were not made at the time of the February 2020 update), while the APO selected a yearly target of 8.6 fatalities for 2020. The APO's regional 2018 baseline measurement for fatalities was 8.6. It is unclear what supporting MnDOT's target would mean in this context or how it would help the APO to target investment funding. By electing to pursue targets more relevant to the regional baseline, the APO can better evaluate the effectiveness of its roadway safety and more efficiently monitor changes in this and other roadway safety numbers.

Examples of programmed projects in the FY 2020-2023 TIP that will help achieve the APO's roadway targets include the following: the installation of a reduced conflict intersection at Benton CSAH 8, east of Saint Cloud (project number 0503-90); construction of Phase 3 of the ROCORI Trail along railroad corridor from Cold Spring to Rockville (project number 073-090-011); and Cooper Avenue from Traverse Road to Stearns CSAH 75 reconstruction with bicycle lanes and sidewalk (project number 162-141-008). These TIP projects are anticipated to positively impact target achievement by providing safety improvements for motorists, bicyclists, and pedestrians.

It is important to note that while the APO can promote a transportation system that is safe for all users through appropriate safety infrastructure to help prevent crashes, the APO cannot control driver behaviors that may lead to crashes. The APO and its member jurisdictions and agencies can only encourage, educate, and inform citizens of safe driving, walking, and bicycling habits in an attempt to mitigate crashes.

Roadway Accessibility, Mobility, and Connectivity

Percent of person-miles traveled on the Interstate and non-Interstate NHS that are reliable in the APO region is currently at 100 percent and 97 percent, respectively. MnDOT has set targets of Interstate reliability at 80 percent and non-Interstate NHS at 75 percent. The APO has reviewed past data trends and determined Interstate reliability should remain at 100 percent, therefore making supporting the MnDOT targets not as relevant to the APO's planning area.

The non-Interstate NHS reliability has seen a flux of reliability from 2013. The APO has a goal to increase system accessibility, mobility, and connectivity. Similar to person-miles traveled on the Interstate, the APO's baseline measurement exceeds the targets established by MnDOT. Choosing to support the state targets would not allow the APO to gauge an

accurate representation of the area's needs due to the fact they are lower than the current existing conditions for the APO's planning area.

Since there are currently no programmed projects that will increase reliability, APO staff have set a lower target for non-Interstate NHS reliability.

An example of programmed projects in the FY 2020-2023 TIP that will help achieve the APO's targets include the MN 23 mill and overlay from CR 1 to MN 95 (project number 0503-90). This TIP project is anticipated to positively impact target achievement by elevating these sections of the NHS pavement from a fair to good pavement rating.

Transit Management and Preservation

Staff at Saint Cloud MTC and the APO worked together to establish both transit asset management State of Good Repair targets and the Transit Economic Requirements Model (TERM) scale targets for facilities.

Examples of programmed projects in the FY 2020-2023 TIP that will help achieve the APO's targets include: the purchase of 35-foot replacement CNG buses (project number TRS-0048-20T); the purchase of standard 40-foot replacement CNG fixed route bus (project number TRS-0048-20TA); the purchase of three replacement operations vehicles (project number TRF-0048-21B); and facility improvements (project number TRF-0048-21L).

These TIP projects are anticipated to positively impact target achievement by replacing fixed route and Dial-a-Ride buses past their state of good repair with new buses and maintaining and improving existing facilities.

Roadway Management and Preservation

Similar to roadway safety, the APO has opted to set stricter performance targets for roadway management and preservation than MnDOT. APO staff believe that by tailoring targets specifically to the region, the APO is better equipped to track, monitor, and potentially address changes – both positive and negative – in a more effective and efficient manner.

MnDOT has set a target of Interstate pavement in good condition at 55 percent while the APO has set a target of 85 percent. The APO's target is based on the current condition of the Interstate pavement in good condition sitting at 90.3 percent within the APO planning area.

MnDOT has set a target of non-Interstate NHS pavement in good condition at 50 percent while the APO has set a target of 60 percent. The APO's target is based on the current condition of non-Interstate NHS pavement in good condition sitting at 58.7 percent within the APO planning area.

MnDOT has set a target of Interstate pavement in poor condition at 2 percent while the APO has set a target of 1 percent. Based on the current condition of the Interstate pavement in poor condition being 0 percent within the APO region, APO staff felt that supporting the state's target of 2 percent would not be as meaningful to the region or decision-makers.

MnDOT has set a target of non-Interstate NHS pavement in poor condition at 4 percent while the APO has set a target of 1 percent. The APO's target was set based on the current condition of non-Interstate NHS pavement in poor condition being reported at 0.2 percent within the region. Again, based on current conditions within the APO being better than what

was identified as an achievable target by MnDOT, the APO has opted to impose stricter requirements and goals that would more closely manage roadway condition with the region.

Currently there are no Interstate pavement projects programmed in the APO's MPA.

The APO's currently has 64.2 percent of bridges classified in good condition with a target of 60 percent. MnDOT has a goal of 50 percent. The APO estimates our bridge conditions being relatively unchanged in the next four years. The APO has set a target of 1 percent of our NHS bridges in poor condition compared to MnDOT's target of 4 percent.

The MTP states the APO will prioritize the maintenance and preservation of the existing transportation network. Roadway management and preservation projects within the FY 2020-2023 TIP include the replacement of US 10 bridge #3666 with box culvert northwest of Benton CSAH 33 (project number 0502-115), the replacement of MN 23 bridge over US 10 (project number 0503-91), and the replacement of I-94 bridges #73875 and #73876 over BNSF railroad (project number 7380-259).

Roadway Metropolitan Vitality and Economic Development

Interstate freight movement is very important to the economy as many businesses are dependent on a reliable system for shipping and delivery. MnDOT has set a target of 1.5 truck travel time reliability (TTTR) while the APO has adopted a target of 1.24. The current TTTR is 1.1 in the APO region. Again, the APO has opted to impose stricter performance targets on its region due to the fact that the APO's baseline measurement was below that of the MnDOT established targets.

There are currently no programmed projects expected to increase reliability. However, the Interstate system is still under capacity within the APO region, so there is no evidence travel time reliability will see any adverse impacts.

MPO Investment Priorities

Performance-based programming uses strategies and priorities to guide the allocation of resources to projects that are selected to achieve goals, objectives, and targets. Performance-based programming establishes clear linkages between investments made and expected performance outputs and outcomes.

The responsibility of reporting, gathering, and evaluating existing conditions of the roadway network falls under the purview of the APO's planning technician.

While the APO's <u>project selection process and investment strategy</u> – as identified in the <u>Introduction</u> – is anticipated to remain the same, APO staff will conduct studies and use the tools necessary to project future transportation needs and investment priorities through the following techniques:

- The travel demand model will be updated and used to identify current or future deficiencies of the Federal-aid system of roadways throughout the urbanized area.
 - The model is a key component of increasing accessibility and mobility options for people and freight while exploring congestion mitigation measures.
- A review of traffic operations for the MN 15 corridor from Second Street S to 12th Street N in Saint Cloud tentatively scheduled for 2020.
- A pavement condition database update has been proposed which will assess the pavement conditions. Cost projections for system preservation maintenance has also been included.

The APO has also adopted additional performance measures which will help investment priorities such as crashes involving chemical impairment and distracted driving, volume/capacity (V/C) ratios, and return on investment strategies to name a few.

Future TIP projects – both currently within this document and future subsequent TIP documents – and potential financial implications have been considered by APO staff when establishing performance targets for the region.

An example of this is the one programmed project to be completed on MN 23. This project – comprising approximately 17 lane miles – involves pavement preservation treatments, which, when factored together will improve pavement condition in the area from fair to good. Accordingly, this will result in NHS good pavement condition in the area to be at approximately 78.1 percent by 2023. Even with the added increase in pavement quality conditions – up 4.8 percent – APO staff understand that normal degradation of pavement within other areas of the planning area can and more likely will bring down the overall average.

| Pavement Condition | 2018 | 2023 | Percentage Change |
|--------------------|-------|-------|----------------------|
| Good | 64.3% | 73.0% | 8.7% |
| Fair | 35.5% | 26.8% | -8.7% |
| Poor | 0.2% | 0.2% | 0% |

Figure 21: A comparison of pavement conditions before and after the completion of pavement maintenance programmed into the APO's FY 2020-2023 TIP.

Another example of this are the five bridge replacement projects programmed into the TIP. These projects replace three bridges on US 10 (project numbers 0502-115 and 0503-91) and two bridges on I-94 (project number 7380-259). With the replacement of these bridges, which currently have a fair condition rating, bridge conditions in the APO's MPA will improve by roughly 3.2 percentage points.

| NHS Bridge Condition | 2018 | 2023 | Percent Change |
|-------------------------|-------|-------|----------------|
| Good | 64.2% | 67.4% | 3.2% |
| Fair | 35.8% | 32.6% | -3.2% |
| Poor | 0.0% | 0.0% | 0% |

Figure 22: A comparison of bridge conditions before and after the completion of bridge replacement projects programmed into the APO's FY 2020-2023 TIP.

It is anticipated that there will be enough available revenue to ensure performance targets within the APO's planning area are met.

As finalized performance targets become available for additional performance measures, anticipated programmed TIP projects will have to demonstrate how they will contribute to achieving those predetermined targets. APO staff plan to examine any additional performance targets that are set by MnDOT and evaluate the effectiveness of adopting those targets for the region or if developing its own targets would be more effective.

CHAPTER FOUR: FINANCIAL CAPACITY ANALYSIS

General Legislative and Policy Background

As the Federally designated MPO for the Saint Cloud MPA, the APO must demonstrate fiscal constraint when programming funding for projects in the TIP. Under 23 CFR §450.326(j), the APO is required to include a financial plan for the projects being programmed in the TIP, as well as demonstrate the ability of its agencies and/or jurisdictions to fund these projects while continuing to also fund the necessary system preservation work of the existing transportation system.

FAST Act & CAAA TIP Financial Requirements

The most recent surface transportation bill, the 2015 FAST Act, and the Clean Air Act Amendments of 1990 (CAAA) have prescribed the following financial planning requirements for MPOs, state departments of transportations (DOTs), and public transit agencies:

- Be financially constrained by year and include a financial plan that demonstrates through current and projected revenue streams, how implementing agencies requesting Federal funds can provide the required local match, while adequately operating and maintaining their existing transportation system;
- Include only projects for which construction and operating funds are reasonably expected to be available. In the case of new funding sources, strategies for ensuring their availability shall be identified;
- The MPO must consider all projects and strategies funded under title 23 USC. and the Federal Transit Act, other Federal funds, local sources, state assistance, and private participation. The amount of funding assumed for future years from Federal sources should not exceed currently authorized amounts;
- Show the amount of Federal funds proposed to be obligated in each program year, the proposed sources of Federal and non-Federal funds, and the estimated cost for each project; and
- Meet all criteria in the metropolitan and statewide planning regulations.

Financial Analysis Preparation

In order for projects to be programmed into the TIP, not only do they have to align with the APO's MTP, but they must be fiscally constrained within the respective agency or jurisdiction's budget.

Estimated local funds, as part of the necessary local match for federally funded projects, must not compromise maintenance and operation – known as system preservation – of the existing roadway network.

Local match amounts allocated to Federal "system preservation" projects are assumed to enhance maintenance and operation of the existing system. These projects focus on activities that retain and/or restore the condition of an existing roadway within a jurisdiction's transportation network. Work classified under system preservation can include activities such as – but not limited to – snow removal, road repair, resurfacing, reconditioning, bridge repair, reconstruction, traffic management, and safety.

For an agency or jurisdiction to be found in financial conformance, local match amounts allocated to "expansion" projects – projects that either add capacity to an already existing

roadway or construct an entirely new roadway – should not adversely impact a jurisdiction's historic local system preservation investment.

Historical Financial Condition

Each agency and jurisdiction that has projects programmed into the FY 2020-2023 TIP has provided historical information on transportation funding. This information, gathered over a period of 10 years, demonstrates how each respective agency or jurisdiction allocates funding to either system preservation or expansionary projects. This information is then averaged out over the 10 year period and reflected as a percentage split between system preservation and expansion projects.

Future Financial Condition

In addition to the historical information provided, each jurisdiction and agency had to provide projected local revenue sources per each year programmed into the FY 2020-2023 TIP. These sources included local tax levies, special assessments, state funding, state-aid funding, bonding, and other miscellaneous local revenue streams.

Determining Fiscal Constraint

To determine the fiscal constraint for each jurisdiction and agency, APO staff consulted both the historical and future financial information provided.

In order to ensure potential revenue was being allocated appropriately toward system preservation, the historical funding percentage was applied to the total projected local funds by year. The funds remaining would then be allocated toward expansion projects. Fiscal constraint would be maintained if the local match of the projects programmed into the TIP (either system preservation or capacity expansion) do not exceed the projected revenue allocations.

Calculating fiscal constraint for the three counties and MnDOT D3 varies from the individual jurisdictions and agencies. This is because only a portion of the county's or MnDOT's roadway network falls within the APO's MPA. Financial information for these jurisdictions is based upon the percentage of the roadway network that falls within the APO's MPA. For contextual information, the APO has also asked the counties and MnDOT D3 to provide both historical and future financial information for their entire respective planning areas. Because these entities have larger pools of money to pull from, fiscal constraint may or may not be met within the APO's MPA but will be maintained on a countywide or districtwide level.

Financial Capability Finding

The pages that follow summarize the existing and forecasted financial condition of implementing agencies and the ability to provide adequate local and/or state funding to match Federal dollars programmed in the FY 2020-2023 TIP.

Benton County

Overall Historical Financial Condition

Over a 10 year period – 2009 through 2018 – Benton County has allocated on average 67 percent of overall local transportation related dollars to system preservation of the current transportation system. This has left approximately 33 percent of overall local transportation related dollars to be expended on new transportation related projects.

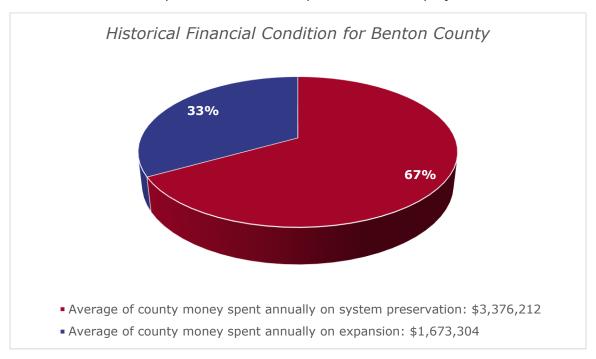

Figure 23: Local investment on system preservation and expansion within Benton County. Data courtesy of Benton County Highway Department.

| Year | System Preservation | Expansion | Total County Investment | |
|--|------------------------|--------------|----------------------------|--|
| 2009 | \$4,177,474 | \$355,768 | \$4,533,242 | |
| 2010 | \$3,145,990 | \$23,873 | \$3,169,863 | |
| 2011 | \$3,282,985 | \$136,292 | \$3,419,277 | |
| 2012 | \$3,786,495 | \$17,296 | \$3,803,791 | |
| 2013 | \$2,522,929 | \$1,550,646 | \$4,072,938 | |
| 2014 | \$4,422,130 | \$6,133,846 | \$10,555,976 | |
| 2015 | \$3,136,796 | \$952,114 | \$4,088,910 | |
| 2016 | \$930,787 | \$3,878,344 | \$4,809,131 | |

| Average | \$3,376,212 | \$1,673,304 | \$5,049,515 | |
| Percentage of Total County Expense | 67% | 33% | 100% | |

Figure 24: Local investment on system preservation and expansion within Benton County from 2009-2018. Data courtesy of Benton County Highway Department.

Historical Financial Condition within APO's MPA

Approximately 12 percent of the roadway network for Benton County lies within the APO planning. In order to approximate the budget expended within the APO planning area, Benton County takes a flat 12 percent from its total budget and reasonably estimates a budget for the portion of the county within the APO planning. That stated, Benton County will redistribute funding across the county as need arises to maintain, operate, and expand its roadway network.

Of note, all of the expansion projects within Benton County have occurred within the portion of the county within the APO's MPA, thus skewing the system preservation to expansion ratio within the MPA.

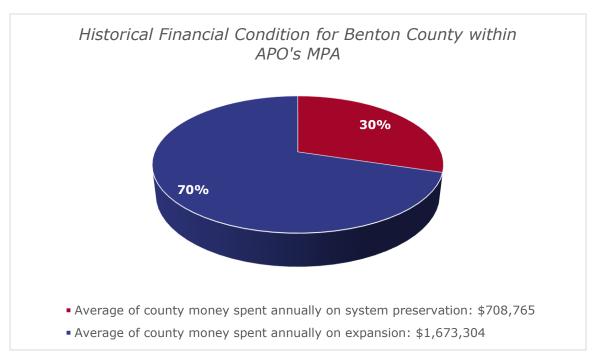

Figure 25: Local investment on system preservation and expansion within the portion of Benton County within the APO's MPA. Data courtesy of Benton County Highway Department.

| Year | System Expansion Preservation | | Total County Investment |
|--|-------------------------------|--------------|----------------------------|
| 2009 | \$501,297 | \$355,768 | \$857,065 |
| 2010 | \$377,519 | \$23,873 | \$401,392 |
| 2011 | \$393,958 | \$136,292 | \$530,250 |
| 2012 | \$454,379 | \$17,296 | \$471,675 |
| 2013 | \$302,675 | \$1,550,646 | \$1,853,321 |
| 2014 | \$530,656 | \$6,133,846 | \$6,664,502 |
| 2015 | \$376,416 | \$952,114 | \$1,328,530 |
| 2016 | \$111,694 | \$3,878,344 | \$3,990,038 |

| Average | \$708,765 | \$1,673,304 | \$2,382,069 |
| Percentage of Total County Expense | 30% | 70% | 100% |

Figure 26: Local investment on system preservation and expansion within the portion of Benton County within the APO's MPA from 2009-2018. Data courtesy of Benton County Highway Department.

Future Financial Condition

Operating revenue for local transportation dollars for Benton County come from a variety of sources including general tax levies, state-aid funds, and other local investments.

| County Transportation Funding Source | Projected 2020 County Funds | Projected 2021 County Funds | Projected 2022 County Funds | Projected 2023 County Funds | Total 2020- 2023 Projected County Funds |
|--|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|---|
| General Tax Levy | \$2,157,450 | \$2,274,792 | \$4,516,667 | \$4,516,667 | \$13,465,576 |
| State-Aid Funds | \$4,128,067 | \$4,128,067 | \$2,345,800 | \$2,869,042 | \$13,470,976 |
| Assessments | \$0 | \$0 | \$0 | \$0 | \$0 |
| Bonding | \$0 | \$0 | \$0 | \$0 | \$0 |
| Other County | \$291,667 | \$291,667 | \$4,986,667 | \$4,986,667 | \$10,556,668 |
| Total Projected County Funds | \$6,577,184 | \$6,694,526 | \$11,849,134 | \$12,372,376 | \$37,493,220 |

Figure 27: Projected county transportation funding sources and amounts for Benton County to be used toward transportation projects. Data courtesy of Benton County Highway Department.

Future Financial Condition within APO's MPA

Similar to the current financial condition, Benton County reasonably estimates to spend approximately 12 percent of the county's entire transportation related revenue within the APO planning area. However, Benton County will redistribute local transportation revenue costs across the county as need arises to maintain, operate, and expand its roadway network.

| County Transportation Funding Source | Projected 2020 County Funds | Projected 2021 County Funds | Projected 2022 County Funds | Projected 2023 County Funds | Total 2020-2023 Projected County Funds |
|---|--------------------------------------|--------------------------------------|--------------------------------------|--------------------------------------|--|
| General Tax Levy | \$258,894 | \$272,975 | \$542,000 | \$542,000 | \$1,615,869 |
| State-Aid Funds | \$495,368 | \$495,368 | \$281,496 | \$344,285 | \$1,616,517 |
| Assessments | \$0 | \$0 | \$0 | \$0 | \$0 |
| Bonding | \$0 | \$0 | \$0 | \$0 | \$0 |
| Other County | \$35,000 | \$35,000 | \$598,400 | \$598,400 | \$1,266,800 |
| Total Projected County Funds | \$789,262 | \$803,343 | \$1,421,896 | \$1,484,685 | \$4,499,186 |

Figure 28: Projected county transportation funding sources and amounts for the portion of Benton County within the APO's MPA to be used toward transportation projects. Data courtesy of Benton County Highway Department.

Fiscal Constraint within APO's MPA

Figure 29 demonstrates the projected county funds allocated based upon historic funding for both system preservation and expansion expenditures for the portion of Benton County within the APO's MPA. In total, \$1,349,756 is available for system preservation projects during fiscal years 2020-2023. The remaining \$3,149,430 is available for expansion.

| Year | Total Projected County Funds | Historical System Preservation Investment (30% of Total) | Historical Expansion Investment (70% of Total) |
|-------|---------------------------------|--|---|
| 2020 | \$789,262 | \$236,779 | \$552,483 |
| 2021 | \$803,343 | \$241,003 | \$562,340 |
| 2022 | \$1,421,896 | \$426,569 | \$995,327 |
| 2023 | \$1,484,685 | \$445,406 | \$1,039,280 |
| Total | \$4,499,186 | \$1,349,756 | \$3,149,430 |

Figure 29: A total of available revenue for the portion of Benton County within the APO's MPA by year from 2020 through 2023. Data courtesy of Benton County Highway Department.

During this time frame, Benton County has two system preservation projects within the APO's MPA programmed into the TIP requiring a county match of \$259,373 in year of expenditure dollars. Overall, Benton County has sufficient funding to finance these project and thereby maintains fiscal constraint.

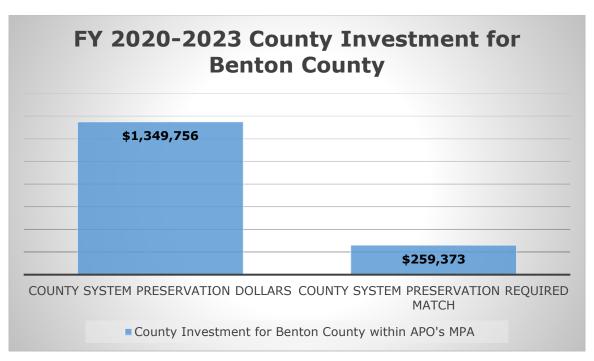

Figure 30: Total fiscal constraint for Benton County within the APO's MPA for TIP cycle FY 2020-2023. Data courtesy of Benton County Highway Department.

Sherburne County

Overall Historical Financial Condition

Over a 10 year period – 2009 through 2018 – Sherburne County has allocated on average 100 percent of overall local transportation related dollars to system preservation of the current transportation system.

The county has not completed any capacity expanding projects within that time frame.

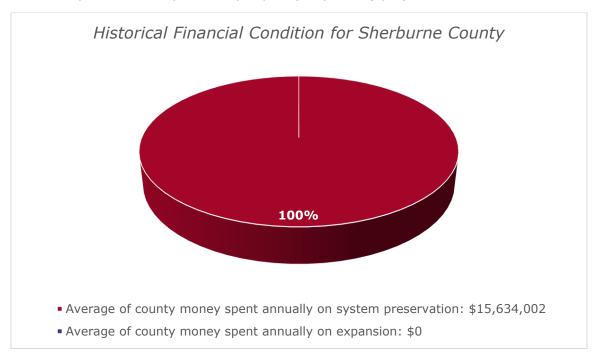

Figure 31: Local investment on system preservation and expansion within Sherburne County. Data courtesy of Sherburne County Highway Department.

| Year | System Expansion Preservation | | Total County Investment | |
|-------------------------|-------------------------------|-----|----------------------------|--|
| 2009 | \$13,305,816 | \$0 | \$13,305,816 | |

| Total Projected County Funds | \$1,630,831 | \$1,681,387 | \$1,733,420 | \$1,787,249 | \$6,832,886 |

Figure 36: Projected county transportation funding sources and amounts for the portion of Sherburne County within the APO's MPA to be used toward transportation projects. Data courtesy of Sherburne County Highway Department.

Fiscal Constraint within APO's MPA

Figure 37 demonstrates the projected county funds allocated based upon historic funding for both system preservation and expansion expenditures for the portion of Sherburne County within the APO's MPA. In total, \$6,832,886 is available for system preservation projects during fiscal years 2020-2023. There is no funding set aside for expansion projects.

| Year | Total Projected County Funds | Historical System Preservation Investment (100% of total) | Historical Expansion Investment (0% of Total) |
|-------|---------------------------------|---|--|
| 2020 | \$1,630,831 | \$1,630,831 | \$0 |
| 2021 | \$1,681,387 | \$1,681,387 | \$0 |
| 2022 | \$1,733,420 | \$1,733,420 | \$0 |
| 2023 | \$1,787,249 | \$1,787,249 | \$0 |
| Total | \$6,832,886 | \$6,832,886 | \$0 |

Figure 37: A total of available revenue for the portion of Sherburne County within the APO's MPA by year from 2020 through 2023. Data courtesy of Sherburne County Highway Department.

During this time frame, Sherburne County does not have any projects programmed into the APO's TIP. Therefore, Sherburne County maintains fiscal constraint.

Stearns County

Overall Historical Financial Condition

Over a 10 year period – 2009 through 2018 – Stearns County has allocated on average 89 percent of overall local transportation related dollars to system preservation of the current transportation system. This has left approximately 11 percent of overall local transportation related dollars to be expended on new transportation related projects.

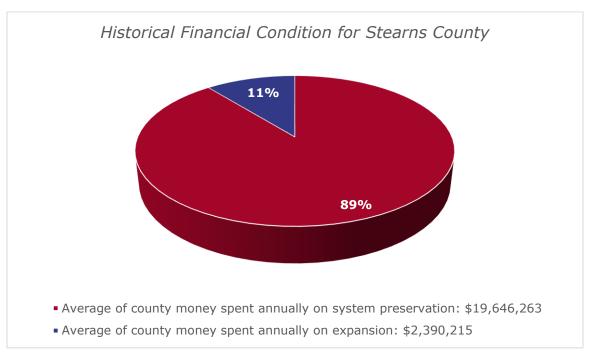

Figure 38: Local investment on system preservation and expansion within Stearns County. Data courtesy of Stearns County Highway Department.

| Year | System Preservation | Expansion | Total County Investment |
|----------------------------|------------------------|--------------|----------------------------|

Future Financial Condition within APO's MPA

Similar to the current financial condition, Stearns County reasonably estimates to spend approximately 18 percent of the county's entire transportation related revenue within the APO planning area. However, Stearns County will redistribute local transportation revenue costs across the county as need arises to maintain, operate, and expand its roadway network.

| County Transportation Funding Source | Projected 2020 County Funds | Projected 2021 County Funds | Projected 2022 County Funds | Projected 2023 County Funds | Total 2020- 2023Projected County Funds |
|--|--------------------------------------|--------------------------------------|--------------------------------------|--------------------------------------|--|
| General Tax Levy | \$1,224,000 | \$1,224,000 | \$1,224,000 | \$1,224,000 | \$4,896,000 |
| State-Aid Funds | \$2,461,500 | \$2,461,500 | \$2,461,500 | \$2,461,500 | \$9,846,000 |

| Bonding | \$0 | \$0 | \$0 | \$0 | \$0 |
| Other County | \$1,332,000 | \$1,332,000 | \$1,332,000 | \$1,332,000 | \$5,328,000 |
| Total Projected County Funds | \$5,017,500 | \$5,017,500 | \$5,017,500 | \$5,017,500 | \$20,070,000 |

Figure 43: Projected county transportation funding sources and amounts for the portion of Stearns County within the APO's MPA to be used toward transportation projects. Data courtesy of Stearns County Highway Department.

Fiscal Constraint within APO's MPA

Figure 44 demonstrates the projected county funds allocated based upon historic funding for both system preservation and expansion expenditures for the portion of Stearns County within the APO's MPA. In total, \$13,647,600 is available for system preservation projects during fiscal years 2020-2023. The remaining \$6,422,400 is available for expansion.

| Year | Total Projected County Funds | Historical System Preservation Investment (68% of Total) | Historical Expansion Investment (32% of Total) |
|-------|---------------------------------|---|---|
| 2020 | \$5,017,500 | \$3,411,900 | \$1,605,600 |
| 2021 | \$5,017,500 | \$3,411,900 | \$1,605,600 |
| 2022 | \$5,017,500 | \$3,411,900 | \$1,605,600 |
| 2023 | \$5,017,500 | \$3,411,900 | \$1,605,600 |
| Total | \$20,070,000 | \$13,647,600 | \$6,422,400 |

Figure 44: A total of available revenue for the portion of Stearns County within the APO's MPA by year from 2020 through 2023. Data courtesy of Stearns County Highway Department.

During this time frame, Stearns County has four system preservation projects within the APO's MPA programmed into the TIP, requiring a local match of \$1,415,064 in year of expenditure dollars. The county also has two expansion projects programmed requiring a local match of \$2,191,593. In addition, the county has also received Federal demonstration funding for a roadway alignment study of CSAH 133. This 2020 project – totaling an estimated \$85,000 – will require a local match of \$17,000 in year of expenditure dollars. For purposes of this fiscal constraint analysis, this source is drawn from the system preservation category. Overall, Stearns County has sufficient funding to finance these projects and thereby maintains fiscal constraint.

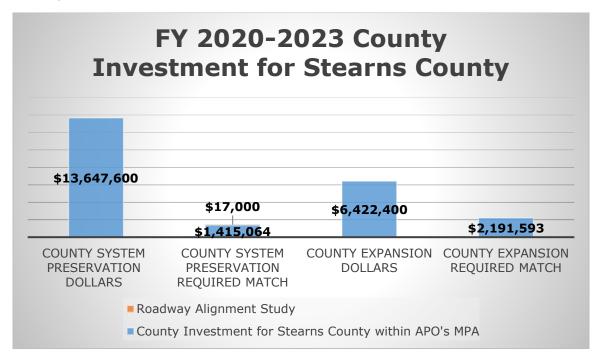

Figure 45: Total fiscal constraint for Stearns County within the APO's MPA for TIP cycle FY 2020-2023. Data courtesy of Stearns County Highway Department.

City of Saint Cloud

Historical Financial Condition

Over a 10 year period – 2009 through 2018 – the City of Saint Cloud has allocated on average 81 percent of overall local transportation related dollars to system preservation of the current transportation system. This has left approximately 19 percent of overall local transportation related dollars to be expended on new transportation related projects.

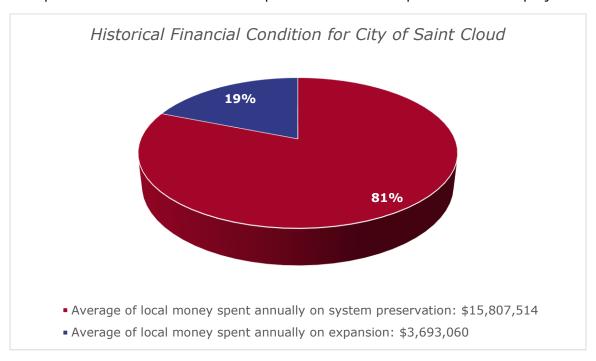

Figure 46: Local investment on system preservation and expansion within the City of Saint Cloud. Data courtesy of City of Saint Cloud.

| Year | System Preservation | Expansion | Total Local Investment | |
|---------------|------------------------|--------------|---------------------------|--|
| 2009 | \$27,651,133 | \$6,728,400 | \$34,379,533 | |

| Total Projected Local Funds | \$22,550,000 | \$18,657,518 | \$16,540,000 | \$17,850,000 | \$75,597,518 |

Figure 48: Projected local transportation funding sources and amounts for the City of Saint Cloud to be used toward transportation projects. Data courtesy of City of Saint Cloud.

Fiscal Constraint

Figure 49 demonstrates the projected city funds allocated based upon historic funding for both system preservation and expansion expenditures the City of Saint Cloud. In total, \$61,233,990 is available for system preservation projects during fiscal years 2020-2023. The remaining \$14,363,528 is available for expansion.

| Year | Total Projected Local Funds | Historical System Preservation Investment (81% of Total) | Historic Expansion Investment (19% of Total) |
|-------|--------------------------------|---|--|
| 2020 | \$22,550,000 | \$18,265,500 | \$4,284,500 |
| 2021 | \$18,657,518 | \$15,112,590 | \$3,544,928 |
| 2022 | \$16,540,000 | \$13,397,400 | \$3,142,600 |
| 2023 | \$17,850,000 | \$14,458,500 | \$3,391,500 |
| Total | \$75,597,518 | \$61,233,990 | \$14,363,528 |

Figure 49: A total of available revenue for the City of Saint Cloud by year from 2020 through 2023. Data courtesy of City of Saint Cloud.

During this time frame, the City of Saint Cloud has two system preservation projects programmed into the TIP requiring a local match of \$1,600,438 in year of expenditure dollars. The city has one expansion project programmed into the TIP as well, requiring a local match of \$120,000.

In addition, the city has received Federal demonstration funding for a roadway alignment study of 33rd Street S in relation to the Mississippi River Bridge crossing. This 2020 project – project number 091-070-027 totaling an estimated \$167,000 – will require a local match of \$60,000 in year of expenditure dollars. In coordination with MnDOT District 3's State Aid Office and MnDOT Central Office's Special Programs Project Development Engineer, it was determined that the Saint Cloud Area Planning Organization would be the lead sponsoring agency for this project. As a result, while this project is reflected as a Saint Cloud APO project, all local match funds for this project are being generated from the city. For purposes of this fiscal constraint analysis, the source for this study project is drawn from

the system preservation category. Overall, the City of Saint Cloud has sufficient funding to finance these projects and thereby maintains fiscal constraint.

Fiscal Constraint

Figure 54 demonstrates the projected city funds allocated based upon historic funding for both system preservation and expansion expenditures the City of Saint Joseph. In total, \$19,495,382 is available for system preservation projects during fiscal years 2020-2023. The remaining \$4,572,991 is available for expansion.

| Year | Total Projected Local Funds | Historical System Preservation Investment (81% of Total) | Historical Expansion Investment (19% of Total) |
|-------|--------------------------------|--|---|
| 2020 | \$10,480,982 | \$8,489,595 | \$1,991,387 |
| 2021 | \$2,296,527 | \$1,860,187 | \$436,340 |
| 2022 | \$6,724,207 | \$5,446,608 | \$1,277,599 |
| 2023 | \$4,566,657 | \$3,698,992 | \$867,665 |
| Total | \$24,068,373 | \$19,495,382 | \$4,572,991 |

Figure 54: A total of available revenue for the City of Saint Joseph by year from 2020 through 2023. Data courtesy of City of Saint Joseph.

During this time frame, the City of Saint Joseph does not have any projects programmed into the APO's TIP. Thereby, the City of Saint Joseph maintains fiscal constraint.

City of Sartell

Historical Financial Condition

Over a 10 year period – 2009 through 2018 – the City of Sartell has allocated on average 51 percent of overall local transportation related dollars to system preservation of the current transportation system. This has left approximately 49 percent of overall local transportation related dollars to be expended on new transportation related projects.

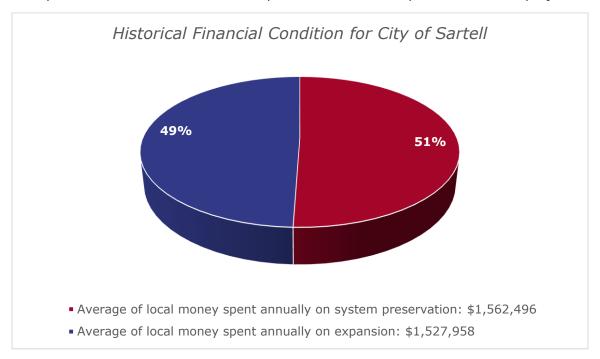

Figure 55: Local investment on system preservation and expansion within the City of Sartell. Data courtesy of City of Sartell.

| Year | System Preservation | Expansion | Total Local Investment | |
|---|------------------------|--------------|---------------------------|--|
| 2009 | \$881,517 | \$1,485,860 | \$2,367,377 | |

City of Sauk Rapids

Historical Financial Condition

Over a 10 year period – 2009 through 2018 – the City of Sauk Rapids has allocated on average 85 percent of overall local transportation related dollars to system preservation of the current transportation system. This has left approximately 15 percent of overall local transportation related dollars to be expended on new transportation related projects.

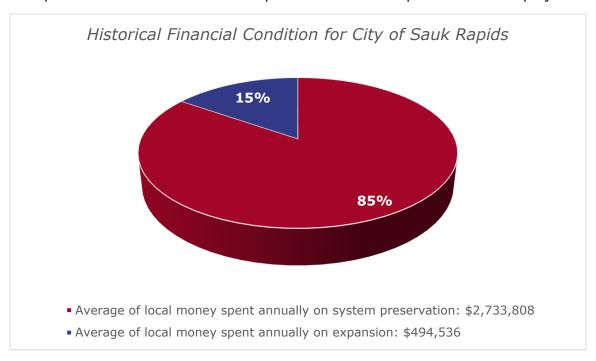

Figure 60: Local investment on system preservation and expansion within the City of Sauk Rapids. Data courtesy of City of Sauk Rapids.

| Year | System Preservation | Expansion | Total Local Investment |
|---|------------------------|-------------|---------------------------|

Fiscal Constraint

Figure 63 demonstrates the projected city funds allocated based upon historic funding for both system preservation and expansion expenditures the City of Sauk Rapids. In total, \$10,234,265 is available for system preservation projects during fiscal years 2020-2023. The remaining \$1,806,047 is available for expansion.

| Year | Total Projected Local Funds | Historical System Preservation Investment (85% of Total) | Historical Expansion Investment (15% of Total) |
|-------|--------------------------------|---|---|
| 2020 | \$2,846,600 | \$2,419,610 | \$426,990 |
| 2021 | \$2,923,551 | \$2,485,018 | \$438,533 |
| 2022 | \$3,843,292 | \$3,266,798 | \$576,494 |
| 2023 | \$2,426,869 | \$2,062,839 | \$364,030 |
| Total | \$12,031,312 | \$10,234,265 | \$1,806,047 |

Figure 63: A total of available revenue for the City of Sauk Rapids by year from 2020 through 2023. Data courtesy of City of Sauk Rapids.

During this time frame, the City of Sauk Rapids has one system preservation project programmed into the TIP requiring a local match of \$903,975 in year of expenditure dollars. Overall the City of Sauk Rapids has sufficient funding to finance this project and therefore maintains fiscal constraint.

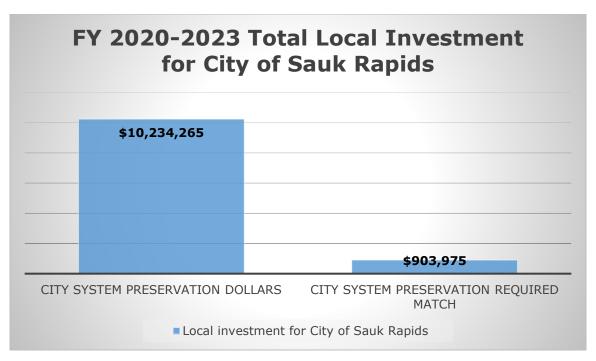

Figure 64: Total fiscal constraint for the City of Sauk Rapids for TIP cycle FY 2020-2023. Data courtesy of City of Sauk Rapids.

Saint Cloud Metropolitan Transit Commission

Historical Financial Condition

Over a 10 year period – 2009 through 2018 – Saint Cloud Metropolitan Transit Commission (Saint Cloud Metro Bus) has historically obtained funding for transit related projects from fares/other local funds, state funds, and tax levied local funds.

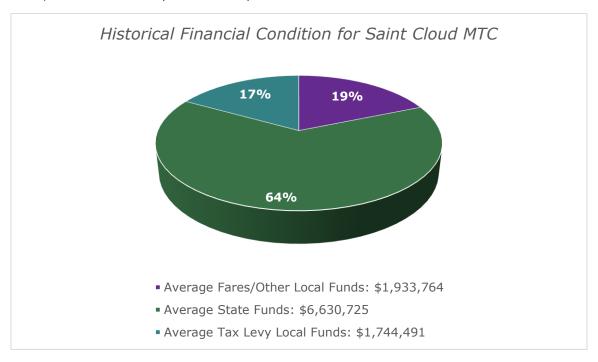

Figure 65: Historic split of local and state revenues for Saint Cloud MTC from 2009 through 2018. Data courtesy of Saint Cloud MTC.

| Year | Fares/Other Local Funds | State Funds | Tax Levy Local Funds | Total Local Funds |
|---------------------------------------|----------------------------|--------------|-------------------------|----------------------|
| 2009 | \$1,630,649 | \$1,352,392 | \$1,308,286 | \$4,291,327 |
| 2010 | \$1,680,491 | \$3,093,707 | \$1,556,838 | \$6,331,036 |
| 2011 | \$1,814,684 | \$1,895,624 | \$1,499,701 | \$5,210,009 |
| 2012 | \$1,863,927 | \$2,409,037 | \$1,069,528 | \$5,342,493 |
| 2013 | \$1,937,840 | \$1,739,493 | \$1,056,722 | \$4,734,055 |
| 2014 | \$2,176,080 | \$13,275,907 | \$1,068,621 | \$16,520,607 |
| 2015 | \$2,092,306 | \$7,174,978 | \$2,467,058 | \$11,734,341 |
| 2016 | \$2,160,173 | \$8,565,188 | \$2,467,387 | \$13,192,748 |
| 2017 | \$1,832,920 | \$12,347,804 | \$2,478,528 | \$16,659,252 |
| 2018 | \$2,148,575 | \$14,453,125 | \$2,472,245 | \$19,073,945 |
| Total | \$19,337,645 | \$66,307,254 | \$17,444,914 | \$103,089,813 |
| Average | \$1,933,764 | \$6,630,725 | \$1,744,491 | \$10,308,981 |
| Percentage of Total Local Funds | 19% | 64% | 17% | 100% |

Figure 66: Historic split of local and state revenues for Saint Cloud MTC from 2009 through 2018. Data courtesy of Saint Cloud MTC.

Operating revenue for local transit comes from local tax levies, fares/other local funding, and state funds.

| Transit Funding Source | Projected 2020 Funds | Projected 2021 Funds | Projected 2022 Funds | Projected 2023 Funds | Total 2020- 2023 Projected Funds |
|-----------------------------------|-------------------------|-------------------------|-------------------------|-------------------------|---|
| Local Tax Levy | \$3,344,406 | \$3,447,712 | \$3,530,087 | \$3,583,038 | \$13,905,243 |
| Fares/Other Local | \$1,898,875 | \$1,956,922 | \$1,919,865 | \$1,948,663 | \$7,724,325 |
| State Funds | \$10,113,728 | \$10,163,306 | \$10,366,572 | \$10,522,071 | \$41,165,677 |
| Total Projected Local Funds | \$15,357,009 | \$15,567,940 | \$15,816,524 | \$16,053,772 | \$62,795,245 |

Figure 67: Projected local transit funding sources for Saint Cloud MTC for FY 2020-2023. Data courtesy of Saint Cloud MTC.

Fiscal Constraint

Out of the total transit funding source dollars available – \$62,795,245 – Saint Cloud MTC must set aside a significant portion for operation expenditures – a total of \$57,000,000. The remaining dollars – a total of \$5,795,245 – can be allocated toward new capital improvement projects.

Due to Federal requirements, a minimum 20 percent local match must be provided should any capital improvement project require the use of Federal funds.

During fiscal years 2020-2023, Saint Cloud MTC has 22 capital projects programmed into the TIP requiring a local match of \$2,407,600 in year of expenditure dollars. Overall, Saint Cloud MTC has sufficient funding to finance these projects along with the organization's operation costs. Thereby, fiscal constraint is maintained.

| Year | Total Projected Local Funds | Local Match Required for Operating Costs | Projected Local Dollars Available to Match Capital Projects |
|-------|--------------------------------|--|--|
| 2020 | \$15,357,009 | \$14,100,000 | \$1,257,009 |
| 2021 | \$15,567,940 | \$14,100,000 | \$1,467,940 |
| 2022 | \$15,816,524 | \$14,320,000 | \$1,496,524 |
| 2023 | \$16,053,772 | \$14,480,000 | \$1,573,772 |
| Total | \$62,795,245 | \$57,000,000 | \$5,795,245 |

Minnesota Department of Transportation (MnDOT District 3)

MnDOT D3 encompasses a 13 county area comprised of the counties of Aitkin, Benton, Cass, Crow Wing, Isanti, Kanabec, Mille Lacs, Morrison, Sherburne, Stearns, Todd, Wright, and Wadena. In total, MnDOT D3 supports among other items 1,607 centerline miles of state, U.S., and interstate highways along with 423 bridges and eight transit systems.

The APO MPA is incorporated into MnDOT D3. Approximately 308 lane miles – a split between roughly 289 miles of rural roadway and just over 18 miles of urban roadway – within the APO's planning area fall under the jurisdiction of MnDOT D3. This is equal to roughly 7.7 percent of MnDOT D3.

Overall Historical Financial Condition

Over a 10 year period – 2009 through 2018 – MnDOT D3 has allocated on average 91 percent of overall state and Federal transportation related dollars to maintenance and operations of the current transportation system within its boundary. This has left approximately 9 percent of overall state transportation related dollars to be expended on new transportation related projects.

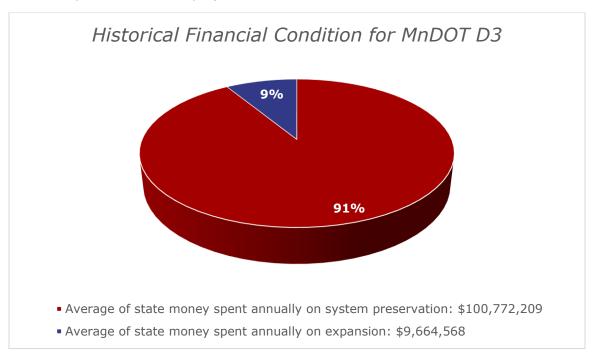

Figure 70: State investment on system preservation and expansion within MnDOT D3 overall. Data courtesy of MnDOT D3.

| Year | System Preservation | Expansion | Total State Investment |
|-----------------------------------|------------------------|--------------|---------------------------|
| 2009 | \$117,182,529 | \$11,000,000 | \$128,182,529 |
| 2010 | \$107,965,172 | \$0 | \$107,965,172 |
| 2011 | \$87,570,556 | \$0 | \$87,570,556 |
| 2012 | \$106,448,774 | \$30,959,481 | \$137,408,255 |
| 2013 | \$95,408,924 | \$4,827,778 | \$100,236,702 |
| 2014 | \$84,586,402 | \$0 | \$84,586,402 |
| 2015 | \$104,075,557 | \$0 | \$104,075,557 |
| 2016 | \$114,865,331 | \$49,858,419 | \$164,723,750 |
| 2017 | \$95,956,886 | \$0 | \$95,956,886 |

| Total | \$1,007,722,089 | \$96,645,678 | \$1,104,367,767 |
| Average | \$100,772,209 | \$9,664,568 | \$110,436,777 |
| Percent of Total State Expense | 91% | 9% | 100% |

Figure 71: State investment on system preservation and expansion within entire MnDOT D3 from 2009 through 2018. Data courtesy of MnDOT D3.

Historic Financial Condition within APO MPA

Approximately 7.7 percent of the roadway network under the jurisdiction of MnDOT D3 falls within the APO planning area. In order to approximate the budget expended within the APO boundary, MnDOT D3 takes a flat 7.7 percent from its total budget and reasonably estimates a budget for the portion of district within the APO planning area. That stated, MnDOT D3 will redistribute funding across the district as need arises to maintain, operate, and expand its roadway network.

Over a 10 year period – 2009 through 2018 – MnDOT D3 has allocated on average 89 percent of overall state transportation related dollars to system preservation of the current transportation system within the APO's MPA. This has left approximately 11 percent of overall state transportation related dollars to be expended on new transportation related projects.

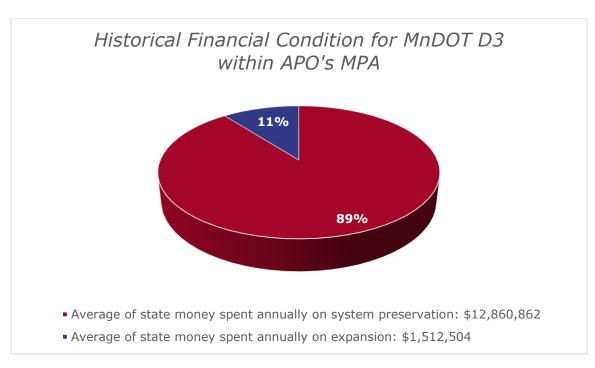

Figure 72: State investment on system preservation and expansion within the MnDOT D3 that falls within the APO's MPA. Data courtesy of MnDOT D3.

| Year | System Preservation | Expansion | Total State Investment |
|--------------------------------|------------------------|--------------|---------------------------|
| 2009 | \$24,081,000 | \$0 | \$24,081,000 |
| 2010 | \$23,789,001 | \$0 | \$23,789,001 |
| 2011 | \$3,906,172 | \$0 | \$3,906,172 |
| 2012 | \$4,958,284 | \$14,159,481 | \$19,117,765 |
| 2013 | \$7,354,881 | \$965,556 | \$8,320,437 |
| 2014 | \$4,941,621 | \$0 | \$4,941,621 |

Overall Future Financial Condition

Operating revenue for state transportation dollars for the entire MnDOT D3 comes from a variety of sources including state non-project specific maintenance, state project specific funds, districtwide set asides, and bonding.

| State Transportation Funding Source | Projected 2020 State Funds | Projected 2021 State Funds | Projected 2022 State Funds | Projected 2023 State Funds | Total 2020- 2023 Projected State Funds |
|--|----------------------------------|----------------------------------|----------------------------------|----------------------------------|---|
| State Non- Project Specific Maintenance | \$27,600,000 | \$27,600,000 | \$27,600,000 | \$27,600,000 | \$110,400,000 |
| State Project Specific Funds | \$47,673,727 | \$89,756,133 | \$87,859,356 | \$58,891,506 | \$284,180,722 |
| Districtwide Set Asides | \$19,780,000 | \$23,370,000 | \$21,749,000 | \$19,787,000 | \$84,686,000 |
| Bonding | \$71,203,000 | \$9,800,000 | \$29,453,550 | \$157,000,000 | \$267,456,500 |
| Total State Funds Projected | \$166,256,727 | \$150,526,133 | \$166,661,906 | \$263,278,506 | \$746,723,272 |

Figure 74: Projected state transportation funding sources and amounts for MnDOT D3 to be used toward transportation projects. Data courtesy of MnDOT D3.

Future Financial Condition within APO MPA

Operating revenue for state transportation dollars for MnDOT D3 within the APO MPA comes from a variety of sources including state non-project specific maintenance, state project specific funds, APO share of districtwide set asides – equivalent to 7.7 percent – and bonding.

| State Transportation Funding Source | Projected 2020 State Funds | Projected 2021 State Funds | Projected 2022 State Funds | Projected 2023 State Funds | Total 2020- 2023 Projected State Funds |
|--|----------------------------------|----------------------------------|----------------------------------|----------------------------------|---|
| State Non- Project Specific Maintenance | \$4,579,200 | \$4,708,800 | \$4,838,400 | \$4,696,000 | \$19,095,400 |
| State Project Specific Funds | \$2,800,000 | \$0 | \$36,975,000 | \$0 | \$39,775,000 |
| APO Share of District Set Asides | \$1,488,410 | \$1,480,710 | \$1,681,218 | \$1,681,218 | \$6,331,556 |
| Bonding | \$2,200,000 | \$0 | \$0 | \$0 | \$2,200,000 |
| Total State Funds Projected | \$11,067,610 | \$6,189,510 | \$43,494,618 | \$6,650,218 | \$67,401,956 |

Figure 75: Projected state transportation funding sources and amounts for MnDOT D3 within the APO's MPA to be used toward transportation projects. Data courtesy of MnDOT D3.

Fiscal Constraint within APO MPA

Figure 76 demonstrates the projected state funds allocated based upon historic funding for both system preservation and expansion expenditures for the portion of MnDOT D3 within the APO's MPA. In total, \$59,987,741 is available for system preservation projects during fiscal years 2020-2023. The remaining \$7,414,215 is available for expansion.

| Year | Total State Funds Projected | Historical System Preservation Investment (89% of Total) | Historical Expansion Investment (11% of Total) |
|-------|--------------------------------|---|---|
| 2020 | \$11,067,610 | \$9,850,173 | \$1,217,437 |
| 2021 | \$6,189,510 | \$5,508,664 | \$680,846 |
| 2022 | \$43,494,618 | \$38,710,210 | \$4,784,408 |
| 2023 | \$6,650,218 | \$5,918,694 | \$731,524 |
| Total | \$67,401,956 | \$59,987,741 | \$7,414,215 |

Figure 76: A total of available revenue for MnDOT D3 within the APO's MPA by year from 2020 through 2023. Data courtesy of MnDOT D3.

During this time frame, MnDOT has nine system preservation projects programmed into the TIP requiring a match of \$8,444,000 in year of expenditure dollars. Therefore, MnDOT D3 has sufficient funding to finance these projects and thereby maintains fiscal constraint.

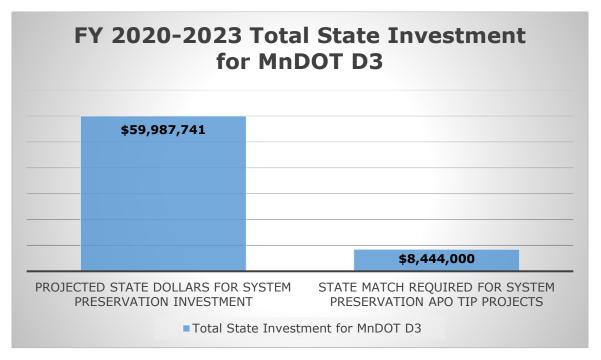

Figure 77: Total fiscal constraint for MnDOT D3 for TIP cycle FY 2020-2023. Data courtesy of MnDOT D3.

Saint Cloud Area Planning Organization

As stated in the introduction to this document, the Saint Cloud APO includes the following member jurisdictions: Benton County, Sherburne, County, Stearns County, City of Saint Cloud, City of Saint Joseph, City of Sartell, City of Sauk Rapids, City of Waite park, and LeSauk Township in addition to Saint Cloud Metro Bus.

Saint Cloud APO and Fiscal Constraint

Operation funding for the Saint Cloud APO is compiled from a variety of sources including APO member assessments, the Federal Consolidated Planning Grant (a combination grant from both FHWA and FTA), and the State of Minnesota's Planning Grant. This funding is listed within the APO's <u>Unified Planning Work Program (UPWP)</u> (https://bit.ly/20poO4t).

The overall objectives of the UPWP are: 1) to help implement the MTP by conducting the planning work necessary for achievement of the goals, objectives, and projects within it; 2) to coordinate planning work among and between the agency and jurisdictional members of the APO; and 3) to facilitate the financial transparency and management of the APO.

Each UPWP covers a two-year period, however, the UPWP is developed and approved annually. The second year of the two-year period covered by the UPWP is provisional only, and is used to help the APO and its members understand upcoming projects and budgetary needs.

Within the FY 2020-2023 TIP, the APO is listed as a sponsor agency for one project – 091-070-027. This project, for a roadway alignment study of 33rd Street S in relation to the Mississippi River Bridge crossing within the City of Saint Cloud, is utilizing Federal demonstration funding. Project 091-070-027 totals an estimated \$167,000 and will require a local match of \$60,000 in year of expenditure dollars. In coordination with MnDOT District 3's State Aid Office and MnDOT Central Office's Special Programs Project Development Engineer, it was determined that the Saint Cloud Area Planning Organization would be the lead sponsoring agency for this project. However, the local funding needed to match Federal funds for this project will be supplied by the City of Saint Cloud.

Since execution of this study is being handled by the APO, it is necessary to document within the TIP the APO's financial condition and fiscal constraint. As noted above, the UPWP serves as the APO's financial documentation for the organization. In accordance with the UPWP, the APO maintains fiscal constraint.

CHAPTER FIVE: PUBLIC INVOLVEMENT

The Saint Cloud APO is committed to being a responsive and participatory agency for regional decision-making. Every year, the public is given a continuous opportunity to view all TIP related materials on the <u>APO website</u> (www.stcloudapo.org) and provide comment via phone or email.

FY 2020-2023 Saint Cloud APO TIP Public Participation Summary

Discussions surrounding project selection for the APO's FY 2020-2023 TIP occurred at the organization's TAC meetings – all of which are open to the public.

A draft of the FY 2020-2023 TIP was distributed via email to members of the APO's TAC and Policy Board in May 2019. In addition, individuals on the interested stakeholders list – including those stakeholders who work specifically with traditionally underserved populations such as people-of-color, individuals with low-income, individuals with disabilities, limited English proficient individuals, and elderly populations – were also emailed a copy of the draft TIP.

Upon release of the draft FY 2020-2023 TIP on June 27, 2019, for the official 30-day public review period, the APO initiated several outreach efforts.

A copy of the draft TIP was posted on the <u>APO's website</u> (www.stcloudapo.org), a legal notice was published in the St. Cloud Times, the newspaper of record, and information about the public comment period was posted on the <u>APO's Facebook page</u> (www.facebook.com/stcloudapo).

The APO hosted an open house at the APO office, 1040 County Road 4 in Saint Cloud, to take public comment on the final draft.

Figure 78: First page of the Affidavit of Publication for the legal notice of the TIP public comment period published in the St. Cloud Times.

NOTES ON REVISED AFFIDAVIT FORM

The 2015 Legislature enacted amendments to the Minnesota law which governs mortgage foreclosure by advertisement. Those amendments appear in Chapter 14 of the 2015 session laws. They are effective on July 1, 2015.

Most importantly, a new statute was added (§580.033) that specifies where a notice of foreclosure should be published, something that was ambiguous under prior law. This statute also requires that affidavits of publication issued by a newspaper must contain certain language related to the published foreclosure notice.

The affidavit of publication form above includes (in paragraph 5) the language called for by the new statute. The form also complies with the general requirements for affidavits of publication found in Minnesota Statute, §331.07. The form is drafted so that it can be used for <u>any</u> published notice, not just mortgage foreclosure notices; in other words, you don't need to use a different form for other kinds of notices.

NOTIFICATION OF PUBLIC INPUT OPPORTUNITY:
SAINT CLOUD AREA PLANNING
ORGANIZATION (APO)
FY 2020-2023
TRANSPORTATION
IMPROVEMENT
PROGRAM (IIP)
The primary purpose of the TIP document is to program transportation projects including roadway, bridge, breyde, pedestrian, pedestrian, and the receiving state and/or federal funds in the Saint Cloud Metropolitan Planning Area in the upcoming fiscal years.
The APO, in coordination with the Federal Highway Administration (FIFVA), Federal Transit Administration of FIFVA, Federal Transit Administration of FIFVA, Federal Transit Administration of FIFVA, Federal Transit Administration of the Transit Administration of Transit Administration of

Figure 79: Second page of the Affidavit of Publication for the legal notice of the TIP public comment period published in the St. Cloud Times.

In compliance with Federal regulations outlined in 23 CFR §450.316, the APO's FY 2020-2023 TIP was open to public review for a period of 30 calendar days starting on Thursday, June 27 through Monday, July 29, 2019.

Notification of this public comment period was published in the St. Cloud Times, the <u>APO's website</u> (www.stcloudapo.org), and on the <u>APO's Facebook page</u> (www.facebook.com/stcloudapo/). Copies of the TIP were also emailed to a list of stakeholders including MnDOT, APO TAC members, and organizations identified as working closely with EJ populations.

| Date Received | Source | Comment | Disposition |
|------------------|-----------------------------|---|---|
| July 3, 2019 | Email from stakeholder list | This is the first time I got this. A very detailed document. Just wondering why the road referred to as the Townline Road is not one of the ones to be improved. (6th Ave SE; 75th Ave N and 30th Ave N). these really need to be improved! | July 3, 2019: Thanks for the email! Townline Road has actually been a huge discussion point among the APO members (LeSauk Township, Stearns County, and Sartell). As far as I know, there is a lot of discussion going on about how this is going to be financed since it falls into several jurisdictions. I know that there was talk about pursing a separate federal grant to complete the project, but unfortunately I don't know if that is going to be a reality this year. For a project to be eligible for federal funds, a minimum of 20 percent of the construction cost must come from the local jurisdiction. Typically the process for getting projects programmed into the Transportation Improvement Program involves jurisdictions applying for the federal dollars locally. And as a region, the APO prioritizes projects from all of these jurisdictions based upon the limited funding that we receive each year. To my knowledge (and I've only been doing this for about two years), Townline Road has not made it to this stage yet. Coming up with that 20 percent local match for construction, plus the other costs associated with projects (engineering, environmental assessments, etc.) has been a sticking point. This is a project that we are watching very closely, but because it sits within five jurisdictions (Saint Wendel Township and Brockway Township along with the three mentioned previously) coordination is going to be key in getting this project done. In the long-term, as it stands right now, in draft form, the APO is developing its long-range plan for the area. I know Townline Road (a portion of it) is being considered to be incorporated into the plan, but it comes down to final costs and whether the city and/or county can financially afford to do this. |

|------------------|----------------------------------|---|---|
| | | | Sorry I can't be of more help! But I know that lots of people have expressed concerns over the state of this roadway. And I know APO staff have expressed interest in working together with the jurisdictions to come up with a plan for this piece of roadway. July 24, 2019: Just wanted to give you a brief update on Townline Road. APO staff and Stearns County were able to come together and apply for a Federal grant for Townline Road. This is a nationally competitive grant so it's not a guarantee if we will be selected. The results of the grants should be known by September. Fingers crossed! |
| July 11, 2019 | Facebook | July 11, 2019: I just want to say that the cities restoration on 22nd st s. From 33rd ave to oak grove rd. Was beautiful the restoration on the seberger development was great. The cities restoration on 33rd st s. Is the worst I have ever seen. Thanks for the weeds they are going wonderfully. July 12, 2019: Thank you for following up on this. I have been impressed. | July 12, 2019: We will pass your comment to the City. We appreciate you taking the time to provide feedback! July 12, 2019: (INSERT NAME), the City says that the turf is not final. The contractor will be mowing and treating the weeds soon. You should contact Janice Koetter at the City for more details. |
| July 16, 2019 | Email correspondence between APO | | The following is a summary of the email chain: Comments centered on the inclusion of left-over DEMO funds and the allocations of that funding to both Stearns County and the City |

| | Executive Director and MNDOT | | of Saint Cloud for CSAH 133 and 33rd Street S Mississippi River crossing respectively. Both projects were slated to be incorporated into the APO's Unified Planning Work Program (UPWP). Per Lynnette Roshell, MnDOT Special Programs Project Development Engineer, these two DEMO funded projects needed to be incorporated into the STIP (and subsequently the TIP). Coordinating with both MnDOT District 3 and Central Office, APO staff were able to incorporate these two projects into the TIP, the STIP, and the APO's UPWP. |

Figure 80: Public comment disposition matrix.

Changes to the FY 2020-2023 TIP

After the adoption of the STIP – which incorporates the TIP – by FHWA and FTA, changes made to the document can be initiated by the respective sponsoring agency. These changes, as identified in the <u>APO's Stakeholder Engagement Plan</u> (https://bit.ly/2v4fnR2) are defined as either technical corrections, administrative modifications, or amendments.

The APO has elected to alter the TIP four times a year based upon an amendment schedule adopted by the organization's Technical Advisory Committee. The process to initiate these changes takes approximately four to six weeks which includes a 30-day public comment period for amendments. Changes made to the TIP will be brought before the Policy Board for consideration at the regularly scheduled meetings in February, March, April, and May 2020.

February 2020

In December 2019, Stearns County, WACOSA, Metro Bus, and MnDOT had made requests to change the FY 2020-2023 TIP. Given the nature of some of these changes, an amendment process to this document had been initiated.

| Agency/Jurisdiction | Project Number | Fiscal Year | Proposed Changes |
|---------------------|----------------|----------------|---|
| Stearns County | 073-675-040 | 2020 | Funding source change. Increase in cost from \$1,100,000 to \$1,715,056. Pulling funds from future project. |
| Stearns County | 073-675-040AC | 2022 | AC Payback increase from \$191,480 to \$806,536. |
| Stearns County | 073-675-XXX | 2022 | Project number changed to 073-675-041. Description added to do mill and overlay on CSAH 75 from TH 15 to Cooper Avenue. Funding being pulled to fund 073-675-040. |
| Stearns County | 073-675-XXXAC | 2023 | Project number and description added. |
| WACOSA | TRF-9503-20 | 2020 | Purchase of a new vehicle. |
| Metro Bus | TRS-0048-20TD | 2020 | Funding source change. Project number changed to TRF-0048-20B. |
| Metro Bus | TRS-0048-20TE | 2020 | Funding source change. Project number changed to TRF-0048-20C. |
| Metro Bus | TRS-0048-20T | 2020 | Project description changed from "less than 30-foot" to "35-foot Class 400." Project cost decrease from \$1,150,000 to \$1,125,000. |
| Metro Bus | TRS-0048-20TA | 2020 | Number of buses purchased decreased. Cost decreased from \$1,800,000 to \$573,000. |
| Metro Bus | TRS-0048-20TC | 2020 | Funding source change. Project number changed to TRF-0048-20J |
| Metro Bus | TRF-0048-21L | 2021 | Funding source change. |
| Metro Bus | TRS-0048-23T | 2023 | Work type status changed. |
| MnDOT | 7109-08 | 2021 | Project for MN 301 retaining wall added. |

Figure 81: A list of all of the proposed changes to the FY 2020-2023 TIP requested to be completed by February 2020.

A public comment period was opened for an official 30 day period from Jan. 2, 2020, through Feb. 3, 2020. This notice was published in the St. Cloud Times, the newspaper of record, along with being posted on the APO's website (www.stcloudapo.org) and on the APO's Facebook page (www.facebook.com/stcloudapo). APO staff also directly notified interested stakeholders – those who work specifically with traditionally underserved populations such as people-of-color, individuals with low-income, individuals with disabilities, limited English proficient individuals, and elderly populations – along with those who had directly expressed interested in APO planning activities via email.

APO staff developed an online survey as well to assist with gathering public feedback. APO staff also hosted an open house from 3-5 p.m. at the Saint Cloud branch of the Great River Regional Library on Thursday, Jan. 16.

These changes were also discussed at the APO's TAC meeting on Jan. 30, 2020.

A total of two people took part in the online survey. One person attended the APO's open house.

Figure 82: First page of the Affidavit of Publication for the legal notice of the TIP public comment period (Jan. 2-Feb. 3, 2020) published in the St. Cloud Times.

NOTES ON REVISED AFFIDAVIT FORM

The 2015 Legislature enacted amendments to the Minnesota law which governs mortgage forcelosure by advertisement. Those amendments appear in Chapter 14 of the 2015 session laws. They are effective on July 1, 2015.

Most importantly, a new statute was added (§580.033) that specifies where a notice of foreclosure should be published, something that was ambiguous under prior law. This statute also requires that affidavits of publication issued by a newspaper must contain certain language related to the published foreclosure notice.

The affidavit of publication form above includes (in paragraph 5) the language called for by the new statute. The form also complies with the general requirements for affidavits of publication found in Minnesota Statute, §331.07. The form is drafted so that it can be used for <u>any</u> published notice, not just mortgage foreclosure notices; in other words, you don't need to use a different form for other kinds of notices.

CHAPTER SIX: MONITORING PROGRESS

Per Federal regulations, the Saint Cloud APO must submit annual updates for projects programmed in the TIP. The annual project updates allow MnDOT state-aid engineer the ability to assess project costs and project development status for federally-funded projects. The project updates also allow the APO's TAC to meet and discuss at the beginning of every year the status of currently programmed Federal projects within the APO's MPA.

These status reports are intended to encourage early initiation of project development work, so unforeseen issues can be addressed without delaying project implementation. If unavoidable delays occur, project status reports provide a mechanism for the implementing agency to communicate project issues and associated delays directly to the APO, MnDOT, and any potentially affected local units of government.

The status of the projects programmed in the previous years' TIPs (FY 2018-2021 and FY 2019-2023), have been updated with this TIP (FY 2020-2023). The projects programmed in FY 2018 and FY 2019, however, are presently being constructed and have dropped out of this updated TIP.

This is anticipated to occur within the next few months. Once that has been completed, WACOSA will be provided with a sub recipient agreement to order the bus. |
| CSAH 3 | 005-603-029AC | 2019 | BENTON CONTY | **AC** BENTON CSAH 3, FROM BENTON DR TO TH 10, ROADWAY EXPANSION, INCL BIKE/PED TRAIL PROJECT (AC PAYBACK 1 OF 1) | \$6,405,331 | Construction work has been completed. Final pay request to be submitted. |
| CSAH 75 | 073-675- 037AC1 | 2019 | STEARNS COUNTY | **AC** STEARNS CSAH 75, FROM OLD COLLEGEVILLE ROAD TO CSAH 81 IN STEARNS COUNTY, RESURFACING (AC PROJECT, PAYBACK 1 OF 3) | \$10,172,004 | Project was bid in 2018 and minor preparatory work including constructing temporary median crossovers, temporary signal work, and minor drainage work took place in 2018. Construction has resumed in April 2019. |
| LOCAL 999 | 073-070-020 | 2019 | STEARNS COUNTY | COUNTYWIDE, IMPROVE INTERSECTION LIGHTING ON MULTIPLE STEARNS COUNTY ROADS | \$324,000 | Plans were completed in winter 2018 and are under review. Construction work anticipated to start in June 2019. |
| LOCAL 999 | 073-070-022 | 2019 | STEARNS COUNTY | STEARNS COUNTY, SIGNAL CONFIRMATION LIGHTS ON MULTIPLE STEARNS COUNTY ROADS | \$55,000 | Project is in the design phase. Construction work anticipated to begin in May or June 2019. |
| CSAH 75 | 073-675-039 | 2019 | STEARNS COUNTY | **AC** CSAH 75, FROM 0.1 MILES S OF 33 RD ST S TO 0.1 MILES N OF 33 RD ST S IN ST. CLOUD, INTERSECTION IMPROVEMENTS (AC PROJECT, PAYBACK IN 2020 AND 2021) | \$1,186,277 | Plans for this project are currently under review. Construction work is anticipated to begin in May 2019. |
| MSAS 151 | 162-151-003AC | 2019 | ST. CLOUD | **AC** ST CLOUD MSAS 151, EXPANSION OF TWO-LANE UNDIVIDED ROADWAY (33RD ST SOUTH) TO A FOUR-LANE DIVIDED ROADWAY WITH SIDEWALK AND TRAIL AMENITIES FROM SOUTHWAY DRIVE TO COOPER AVENUE (AC PAYBACK 1 OF 1) | \$4,805,425 | The section of 33 rd Street South from Southway Drive to Navajo Trail was completed in 2018. Section of 33 rd Street South from Navajo Trail to Heritage Drive, including the roundabout at Cooper Avenue South, will be constructed in 2019. |
| PED/BIKE | 162-090-008 | 2019 | ST. CLOUD | CONSTRUCT TRAIL ALONG 33 RD STREET FROM STEARNS CR 74 TO STEARNS CR 136 IN ST. CLOUD | \$590,000 | Plans are being prepared and will be submitted to MnDOT by 05/01/2019. Anticipate a fall 2019 bid letting for construction to occur in 2020. |
| PED/BIKE | 220-591-005 | 2019 | SARTELL | CONSTRUCT SRTS INFRASTRUCTURE IMPROVEMENTS ALONG 2^{ND} AVE N, 5^{TH} AVE N, AND 2-1/2 STREET IN SARTELL | \$1,928,342 | Letting date is anticipated in late April or early May 2019. Construction to be substantially completed by summer 2019 or fall and final completion anticipated summer 2020. |
| RR | 73-00137 | 2019 | MNDOT | NLR RR, INSTALL GATES AT CSAH 134, RIDGEWOOD RD, ST. CLOUD, STEARNS COUNTY | \$194,984 | Agreement with railroad executed on 02/01/2019. Railroad has 18 months to install signs. |
| RR | 73-00138 | 2019 | MNDOT | NLR RR, UPGRADE EXISTING SIGNAL EQUIPMENT AT MSAS 102, 2ND AVE N, WAITE PARK, STEARNS COUNTY | \$212,992 | Agreement with railroad executed on 02/01/2019. Railroad has 18 months to install signs. |
| I 94 | 7380-246 | 2019 | MNDOT | **SPP** I-94, NEAR COLLEGEVILLE, REHAB/REDECK AT BRIDGE #73872 AT STEARNS COUNTY CR 159 OVER I-94 | \$887,392 | Project was let on 12/21/2018. Anticipated start date is 06/03/2019 with an anticipated completion date of 08/23/2019. |
| MN 15 | 7303-50 | 2019 | MNDOT | MN 15, FROM JCT MN 55 IN KIMBALL TO 66 TH AVE IN ST AUGUSTA, FULL DEPTH RECLAIM | \$8,727,923 | Project was let on 12/21/2018. Anticipated start date is 05/06/2019 with an anticipated completion date of 07/28/2019. |
| MN 999 | 8823-338 | 2019 | MNDOT | **IDIQ** DISTRICTWIDE MILL AND OVERLAY AT VARIOUS LOCATIONS (MINIMUM CONTRACT \$3,000,000/MAXIMUM CONTRACT \$10,000,000, EXPIRATION DATE: AUGUST 24, 2020) | \$3,639,000 | Project construction is being done on TH 55 from Brooten to east of Belgrade and on US 71 in Sauk Centre. Work will be completed by 06/30/2019. |

APPENDIX B

Method of Calculation for Performance Measures

| ROADWAY SAFETY PERFORMANCE MEASURES | METHOD OF CALCULATION |
|--|--|
| Number of Fatalities | Number of fatalities for each of the most recent five (5) consecutive years ending in the year for which the targets are established, dividing by 5, and rounding to the tenth decimal place. |
| Rate of Fatalities | Calculation of the number of fatalities per 100 million VMT (100M VMT) for each of the most recent five (5) consecutive years ending in the year for which the targets are established, adding the results, dividing by 5, and rounding to the thousandth decimal place. |
| Number of Serious Injuries | Addition of the number of serious injuries for each of the most recent five (5) consecutive years ending in the year for which the targets are established, dividing by 5, and rounding to the tenth decimal place. |
| Rate of Serious Injuries | Calculation of the number of serious injuries per 100 million VMT (100M VMT) for each of the most recent five (5)consecutive years ending in the year for which the targets are established, adding the results, dividing by 5, and rounding to the thousandth decimal place. |
| Number of Non- Motorized Fatalities and Serious Injuries | Addition of the number of non-motorized fatalities to the number of non-motorized serious injuries for each of the most recent five (5) consecutive years ending in the year for which the targets are established, dividing by 5, and rounding to the tenth decimal place. |

Appendix B1: A list of roadway safety performance measures adopted into the APO's FY 2020-2023 TIP including method of calculation.

| ROADWAY ACCESSIBLITY, MOBILITY, AND CONNECTIVITY PERFORMANCE MEASURES | METHOD OF CALCULATION |
|--|--|
| Annual Percent of Person- Miles Traveled on the Interstate that are Reliable. | Level of Travel Time Reliability (LOTTR) is defined as the ratio of the 80th percentile travel time of a reporting segment to a "normal" travel time (50th percentile), using data from FHWA's free National Performance Management Research Data Set (NPMRDS) or equivalent. Data is collected in 15-minute segments during all time periods other than 8 |

| | p.m6 a.m. local time. The measures are the percent of person-miles traveled on the relevant Interstate that are reliable. |
|---|--|
| Annual Percent of Person- Miles Traveled on the Non- Interstate NHS that are Reliable. | Level of Travel Time Reliability (LOTTR) is defined as the ratio of the 80th percentile travel time of a reporting segment to a "normal" travel time (50th percentile), using data from FHWA's free National Performance Management Research Data Set (NPMRDS) or equivalent. Data is collected in 15-minute segments during all time periods other than 8 p.m6 a.m. local time. The measures are the percent of person-miles traveled on the relevant Non-Interstate NHS that are reliable. |
| Annual Vehicle Miles Traveled. | Addition of the number of vehicle miles traveled for the most recent year for which the target is being established, and rounding to the tenth decimal place. |

Appendix B2: A list of roadway accessibility, mobility, and connectivity performance measures incorporated into the APO's FY 2020-2023 TIP and the method of calculation.

| TRANSIT MANAGEMENT AND PRESERVATION PERFORMANCE MEASURES | METHODS OF CALCULATION |
|---|--|
| State of Good Repair for equipment, facilities, and rolling stock | Revenue vehicles (rolling stock) and service vehicles (equipment), are measured by calculating the percentage of vehicles that have met or exceeded the useful life benchmark. Facilities are measured on the Transit Economic Requirements Model (TERM) scale that are rated less than 3.0. |

Appendix B3: A list of transit management and preservation performance measures incorporated into the APO's FY 2020-2023 TIP and the method of calculation.

| ROADWAY METROPOLITAN VITALITY AND ECONOMIC DEVELOPMENT PERFORMANCE MEASURES | METHODS OF CALCULATION |
|---|--|
| | Freight movement will be assessed by a Truck |
| Truck Travel Time Reliability Index | Travel Time Reliability (TTTR) Index. Reporting is |
| | divided into five (5) periods: morning peak (6-10 |
| | a.m.), midday (10 a.m4 p.m.) and afternoon peak |
| | (4-8 p.m.) Mondays through Fridays; weekends (6 |
| | a.m8 p.m.); and overnights for all days (8 p.m6 |
| | a.m.). The TTTR ratio will be generated by dividing |
| | the 95th percentile time by the normal time (50th |
| | percentile) for each segment. Then, the TTTR Index |
| | will be generated by multiplying each segment's |
| | largest ratio of the five (5) periods by its length, |
| | then dividing the sum of all length-weighted |
| | segments by the total length of Interstate. |

Appendix B4: A list of roadway metropolitan vitality and economic development performance measures incorporated into the APO's FY 2020-2023 TIP and the method of calculation.

| ROADWAY MANAGEMENT AND PRESERVATION PERFORMANCE MEASURES | METHODS OF CALCULATION |
|--|--|
| Interstate System Pavement Conditions | Interstate pavement condition is based on the percent of total lane miles that are rated in good, fair and poor condition calculated using the international roughness index, cracking percent, rutting, and faulting as measurements. International Roughness Index (IRI) is a statistic used to estimate the amount of roughness in a measured longitudinal profile. The IRI is computed from a single longitudinal profile using a quarter-car simulation. If an IRI value of a pavement section is less than 95, the IRI rating is good; between 95 and 170 the IRI rating is fair; and greater than 170 the IRI rating is poor. |
| Non-Interstate NHS Pavement Conditions | Non-Interstate NHS pavement condition is based on the percent of total lane miles that are rated in good, fair and poor condition calculated using the IRI, cracking percent, rutting, and faulting as measurements. |
| Pavement Maintenance | Measure of the number of years since last preservation treatment on a segment of roadway within the Federal-aid system. Percent of bridges by deck area classified in good, fair and poor |
| Bridge Conditions | condition using the NBI ratings for, deck, superstructure, substructure, and culvert. |

Appendix B5: A list of roadway management and preservation performance measures incorporated into the APO's FY 2020-2023 TIP and the method of calculation.
